I.

INTRODUCTION AND CHRONOLOGY

This case is based upon a request to further adjudicate the waters of the Walker River, an interstate stream, originating in California and flowing to its terminus into Walker Lake, Mineral County, Nevada. Walker River Irrigation District ("WRID") is a legislatively created irrigation district, according to NRS, Section 533.300, that stores and regulates allocation of the waters of the Walker River to its members for agricultural irrigation and a golf course.

A decree was entered by the Court regarding the allocation of water rights in 1935. *U.S. v. Walker River Irrigation District,* 11 F.Supp. 158 (D.Nev. 1935). This decree was enforced by WRID until a separate federal Watermaster was appointed.

WRID manages two reservoirs on the Walker River - Bridgeport and Topaz (See C-125-A, a subfile of the present case.) Some time in the last years of the 1980's, WRID so managed the Bridgeport dam and water flow allotments that Bridgeport reservoir was dewatered, which resulted in a large fish kill (C-125-A). The State of California invoked California state law requiring a minimum pool be maintained in Bridgeport Reservoir to preserve fish habitat. Large fines were levied against WRID for its management of the reservoir. WRID filed this action under the Court's continuing jurisdiction of the 1936 decree to determine if California's minimum pool requirement prohibited WRID from executing its obligations under the 1935 decree. This action was given a sub-file of C-125-A for Court convenience.

After this action was filed, the Walker River Paiute Tribe, joined by the United States of America as its trustee, filed for intervention in order to claim additional water rights not granted by the 1935 decree. This action was given a sub-file number of C-125-B.

In October 1994, Mineral County, Nevada, filed a Request to Intervene in this action in order to request minimum flows of the Walker River to reach their terminus to preserve the Lake's fishery from eminent extinction since the Walker River is nearly the only source of recharge for Walker Lake. On or about March 10, 1995, pursuant to the Order of the Court, Mineral County, Nevada filed an amended Complaint in Intervention. On February 9, 1995, the Federal District Court of the District of Nevada issued an Order establishing the manner, method, and timing of service of process on the water rights holders of the Walker River. Mineral County, Nevada, was given until May 10, 1995, within which to complete service on those water rights holders.

Pursuant to Federal Rules of Civil Procedure, Rule 4, Mineral County had mailed a request for waiver of service to persons on lists from the Recorders of Deeds in the County where the Walker River is located and who had recorded water rights, plus to persons on a list of secondary permit holders furnished by the Walker River Irrigation District and the Watermaster. Mineral County received a few waivers from water rights holders, but because Walker River Irrigation District ("WRID") and the Walker River Users Group ("WRUG") had circulated newsletters instructing water rights holders not to execute the waivers, the return of service by waiver was a small percentage of what was believed to be the entire group of water rights holders. Therefore, on June 30, 1995,

Mineral County, Nevada, filed a Motion for Sanctions against WRID and WRUG for interference with the service.

On August 16, 1995, the Court ordered Mineral County to make personal service on the Walker River water rights holders if no waiver of service had been executed and returned. Over 1,000 man-hours of volunteer time and an expenditure of over $79,000.00 by Mineral County and an additional expenditure by the Walker Lake Working Group of $10,000.00, were consumed in completing personal service.

On February 1, 1996, Mineral County, Nevada, filed with the Court the proof of service forms from the personal service. At that time Mineral County informed the Court that it had completed service to the best of its ability since the list given by the Walker River Irrigation District was antiquated and contained many persons who had sold their rights or who were deceased. Mineral County requested that the Court allow it to consider its service complete and serve nothing further pursuant to FRCP, Rule 5, and if the Court believed that further service was required, that the service be accomplished by publication. On March 25, 1997, The Court denied the Motion and did not speak to the request for publication.

On April 24, 1996, Mineral County, Nevada, appealed the Court's denial. The 9th Circuit Court of Appeals in dismissing the appeal noted that such a case could be ripe for publication of service.

On February 22, 1997, Mineral County, Nevada, moved the Court for the right to make service upon the remaining holders of water rights in the Walker River by publication. The Court granted Mineral County's request on April 1, 1997, as to all

holders of water rights in the Walker River that had not been personally served or executed waivers except those who were appurtenant water rights holders in the State of California.

On April 25, 1997, Mineral County, Nevada, filed a Request for an Order Approving the Documents for Publication. Heretofore, Mineral County had proceeded to serve documents and without notice WRID and WRUG had frustrated the efforts at service by an alleged contention regarding the documents served. In an abundance of caution Mineral County requested that the Court approve the documents for publication prior to publication in order to predetermine any further contentions by WRID and WRUG.

Prior to the Court's response the parties agreed that a Notice in Lieu of Summons was more appropriate for publication of service. The parties had heretofore complained that service of the Motion for Intervention, the Amended Complaint in Intervention and the Motion for Preliminary Injunction were confusing and too many pages for the persons served to comprehend and, thus, prepare a meaningful response. Pursuant to that agreement, the parties had a telephone conference with the Honorable Edward C. Reed who determined that the issue of completion of service should be referred to this Court for resolution.

In the meantime and pursuant to the Court's order, water rights holders that have appurtenant water rights in the State of California have been personally served if they could be found. Mineral County, Nevada, states that all personal service that could be accomplished has been. Yet Mineral County, Nevada, believes that certain secondary

permit holders may exist that cannot be identified. The only means by which those unascertainable persons may be served is by means of publication. As set out more fully herein, the persons who may require further notice of this proceeding hold water rights but have not recorded with the County Recorder of Deeds, do not have ascertainable addresses or have replaced dead persons unbeknownst to any party with a list of water rights holders.

II.

MINERAL COUNTY HAS THE MOST UP-TO-DATE LIST OF WATER RIGHTS HOLDERS IN THE WALKER RIVER AND THIS LIST CONFIRMS THAT UNIDENTIFIED WATER RIGHTS HOLDERS EXIST.

Mineral County, Nevada, has prepared a list of those persons believed to hold water rights in the Walker River. This list has been updated as much as possible by confirming persons that were found who received service and acknowledged that they had water rights in the Walker River. (See Affidavit of Kelvin J. Buchanan) The list still reflects persons that cannot be found. Moreover, because many names list as the only address a Post Office Box, and because persons are known to be deceased but still appear as record title holders, Mineral County believes that other persons rightfully hold water

rights but have not changed the title, nor have they been listed in any manner elsewhere as a water rights holder. Mineral County believes that certain water rights holders who have derived their rights from secondary permits through Irrigation Districts or Ditch Associations or for some other reason have not recorded or updated recordation of water rights and, therefore, do not appear.

The records of the county recorder of deeds may not list the most current owner of water rights, particularly if the water rights are secondary rights. Mineral County has a list with the most current holders of water rights from the County recorders of deeds in the counties where the Walker River flows. Mineral County has the first list and second list provided by WRID. Mineral County has the list furnished by the Watermaster. Mineral County has the list of appurtenant water rights holders of water rights in California as furnished by the State Water Resources Control Board and the Attorney General. Mineral County requests that the Court recognize its list as the most current. Mineral County is the only party that has attempted service. The United States and the Walker River Paiute Tribe have not begun service of its claim at this time. WRID was not required to serve any other parties when it instituted this action. The State of Nevada was not required to serve any parties when it requested intervention nor was Cal Trout required to serve any parties for its intervention. Mineral County is in the best position to know what parties exist, who can be served and who cannot be identified. Based upon this knowledge Mineral County respectfully requests that the Court allow publication of a Notice in Lieu of Summons in the newspapers identified by the Honorable Edward C. Reed in his order of April 1, 1997.

The Office of the State Engineer of the State of Nevada has totally delegated or failed for other reasons to have any record in its offices of the water rights holders of the Walker River. There is no possibility of verifying the list by a master list held by the State Engineer. The Watermaster has a list of 74 entries. One is the Walker River Irrigation District. In other words, by notifying the Walker River Irrigation District, not the individual members, the Watermaster believes that it has accomplished sufficient notice of any of its mandates. WRID has admitted that it does not have a list of all water rights holders in the Walker River, since its membership does not include all water rights holders, it does not keep its list up-to-date, and it has no authority in California. WRID, the Watermaster, nor the State Engineer of Nevada can address the issues of service on the water rights holders because they simply have no basis for assessing the problems with service on the water rights holders since none of these entities have made a colorable effort to determine how many water rights holders there are and how they hold their rights. Mineral County has spent the past two years in extensive search and work on the service and is in the only position to certify a list or know that such a list cannot be certified because of unidentified parties. Mineral County is the only party that has undertaken this endeavor and has expended substantial resources to derive this list and understand its failings. The other parties are simply ignorant as to the circumstances and Mineral County requests that the Court weigh that lack of knowledge with the active search and service efforts of Mineral County.

The fact that WRID and WRUG have from the beginning attempted to interfere with the service efforts of Mineral County should also go to the weight of any comments

by these parties. The State of Nevada has throughout this proceeding adopted the arguments and position of WRID and has proffered no position of its own. The United States of America has not begun the service of process for its amended claim and asked for a six month extension. Mineral County is the only party whose argument and statements have substance and meaning regarding the service of process in this case.

III.

PUBLICATION IS APPROPRIATE UNDER NEVADA LAW FOR ACTIONS INVOLVING REAL ESTATE

A.

THE MOST CRITICAL ELEMENT OF SERVICE OF PROCESS IS THE FACTOR OF ADEQUATE NOTICE TO THE PARTY BEING SERVED

Generally, notice of water adjudications is provided by State law. The United States Congress believed that the law of the State for the purpose of water adjudications was paramount to the interests of the United States in water law matters. The Congress has waived the sovereign immunity of the United States and allowed it to be made a party

to state court water adjudications, See, 43 U.S.C., Section 666. The Western States that provide for water adjudications have adopted service by publication of notice in the newspapers of general circulation where the stream is located as sufficient notice to the water rights holders of the stream being adjudicated. See NRS, Section 533.095, Likewise, Oregon, ORS, Section 539.021; Idaho Code 42-1408(2)(b); California Water Code, Section 2527; Colorado Revised Statutes 37-92-401; Arizona, ARS, Section 45-253.

Recently, the Ninth Circuit Court of Appeals reaffirmed the priority of State law in water adjudications in a case in Oregon. In that case, the Court determined that the United States was subject to the State assessment and to the other rules adopted by the State of Oregon for water adjudications.

> As was traditional in Western states, the relative rights of various claimants to water from a river system were determined piecemeal, as conflicts arose, in traditional lawsuits in equity (citations omitted). As the West became more populated, conflicts over water rights increased. As the interrelation of water rights became more apparent, a dilemma emerged: the nature of traditional civil litigation made joinder of the hundreds or thousands of claimants to a river system extremely cumbersome and inefficient. . . As it became clear that the necessary scope of comprehensive water rights adjudication could not be accommodated by traditional litigation procedures, Western states began to develop alternate, statutory adjudication systems for the mass determination of the rights of all

claimants in a river system.. ..

U.S. v. State of Oregon, supra, 44 F.3d 758,763, 764 (9th Cir. 1994).

Clearly, State law allowing publication of notice of the adjudication of water rights has passed court scrutiny as sufficient and adequate notice. Thus if publication of notice is adequate and sufficient notice from the outset of the litigation, then certainly publication to complete service after the personal service that has been accomplished in this matter by Mineral County is more than sufficient.

The Court has already approved the publication of notice.(See Order of April 1, 1997 attached hereto). The issue before this Court is to determine if the Notice in Lieu of Summons (attached hereto) is adequate notice to the parties of the litigation. This Notice has been circulated for comments and Mineral County respectfully submits the Notice as drafted by WRID as the Notice that it agrees to publish in the newspapers of general circulation as identified by the Honorable Edward C. Reed.

B.

NEVADA RULES OF CIVIL PROCEDURE

RULE 4(e)(1)(ii) PROVIDES FOR

PUBLICATION OF NOTICE

Nevada Rules of Civil Procedure, Rule 4, provides as follows:

> (4)(e)(ii). Property. In any action which relates to, or the subject of which is, real or personal property in this state in which such person defendant or corporation defendant has or claims a lien or interest, actual or contingent, herein, or in which the relief

> demanded consists wholly or in part of excluding such person or corporation from any interest therein, and the said defendant resides out of the state or has departed from the state, or cannot after due diligence be found within the state, or conceals himself to avoid the service of summons, the judge or justice may make an order that the service be made by the publication of summons; said service by publication shall be made in the same manner as now provided in all cases of service by publication.

Certainly, Mineral County has exercised due diligence to ascertain, find and serve the potential water rights holders of water rights in the Walker River. Mineral County has personally served a significant number of potential water rights holders. Publication of service will assure that service of process is complete as to all parties.

For the above-stated reasons, Mineral County, Nevada, respectfully requests that this Court issue an Order of Publication for the Notice in Lieu of Summons and that Mineral County's service be considered complete upon proof of publication.

UNITED STATES DISTRICT COURT

DISTRICT OF NEVADA

* * *

UNITED STATES OF AMERICA, Plaintiff, WALKER RIVER PAIUTE-TRIBE, Plaintiff-Intervenor, vs. WALKER RIVER IRRIGATION DISTRICT, a corporation, et al., Defendants. _____/	Case No. C-125-ECR Subfile No. C-125-C **AFFIDAVIT OF KELVIN BUCHANAN**

STATE OF NEVADA)
: ss
COUNTY OF WASHOE)

I, Kelvin J. Buchanan being duly sworn, hereby state that:

1. I am a Professional Engineer registered in the State of Nevada and a principle with the firm of HB Engineering.

2. I have submitted previous affidavits regarding service in C-125-c. One of these affidavits pertains to the spreadsheet containing names and addresses of Walker River Water Rights holders acquired from the State of California, United States Board of Water Commissioners and the Walker River Irrigation District which were compiled in this office. This spreadsheet contained 1,121 names of individual and corporate entitites. Subsequent reviews of the names contained in this spreadsheet obtained from returned waiver-of-service mail and reports from process server volunteers indicated that lists obtained from the above-mentioned sources either had not been purged of former water rights holders or were very out of date. The number of returned waivers of service by the post office plus the number of persons service was completed on, totaled over 150 individuals or entities who no longer held valid water rights.

3. After reviewing additional information including a second data base provided by the Walker River Irrigation District and an affidavit dated February 27, 1996, authored by WRID attorney Dale Ferguson, the Mineral County list was formatted to reflect real water rights holders as of the date of the previous affidavit.

4. I changed the layout of the spreadsheet from boxes to columns. From left to right, the first column lists the name(s) and address of each water right holder. The next column indicates Nevada or California water rights holders. The comment column lists some of the pertinent comments of the process servers, i.e. if the service was accomplished by waiver or whether the water rights holder is listed by a Post Office Box only. The last coumn on the right reflects the status of service. If the box has an "S", then service has been accomplished, if the box has an "UN", the water rights holder is not served because he cannot be located. There were several reasons that persons could not

be located, i.e., moved with no forwarding address, had a Post office box for which the Post Office will not release the physical address, deceased, etc. If the box is blank, we do not know why the person cannot be served, i.e. attempted three times with no one at home, did not respond to service. Husbands and wives at the same address and trusts with multiple trustees were reduced by serving one of the adults at the same address, for example, if the husband was served at the same address where the wife resides also, the service was considered good as to the husband and the wife and the list was reduced by two.

5. At the instruction of the law firm of Zeh, Polaha, Spoo, Hearne & Picker, attorneys for Mineral County, I personally served appurtertenant water rights holders where those rights are held in California. These water rights holders are incorporated into the Appendix, the list of Walker River Water Rights Holders.

6. The total number of water rights holders listed in Appendix numbers 564. I tallied the three categories with these results: Total served = 370, total not located = 131; and total that could not be served are 11%.

Further affiant sayeth naught.

Kelvin J. Buchanan, P.E.

SUBSCRIBED and SWORN to before me, a Notary Public, this 16th day of September, 1997.

UNITED STATES OF AMERICA, Plaintiff, WALKER RIVER PAIUTE TRIBE, Plaintiff-Intervenor v. WALKER RIVER IRRIGATION DISTRICT, a corporation et al., Defendants.	IN EQUITY No. C-125-ECR SUBFILE No. C-125-C MINUTES OF THE COURT DATE: April 1, 1997

FILED APR 7 9 15 AM '97

PRESENT: EDWARD C. REED, JR. U.S. District Judge

Deputy Clerk: OMA L. ROSE Reporter: NONE APPEARING
Counsel for Plaintiff(s) NONE APPEARING
Counsel for Defendant(s) NONE APPEARING

MINUTE ORDER IN CHAMBERS

Proposed Intervenor Mineral County, Nevada moves (Doc. #88) for leave to serve by publication unidentified holders of water rights appurtenant to lands located within the Walker River system. This court by Order filed March 22, 1996 instructed the County to serve personally all holders of water rights on the Walker River system pursuant to Fed. R. Civ. P. 4. The County appealed that Order to the U.S. Court of Appeals for the Ninth Circuit; that appeal was dismissed (Doc. #89) for want of jurisdiction on the grounds that the order appealed from was neither a final appealable order under 28 U.S.C. § 1291, nor an appealable collateral order under the exception to Section 1291 described in Cohen v. Beneficial Loan Corp., 337 U.S. 541 (1949). United States v. Walker River Irrigation Dist., No. 96-15885 (9th Cir. Feb. 12, 1997) (mem.).

The Federal Rules of Civil Procedure permit service of process upon individuals, from whom waivers of service are not obtained under Fed. R. Civ. P. 4(d), "pursuant to the law of the state in which the district court is located, or in which service is effected, for the service of a summons upon the defendant in an action brought in the courts of general jurisdiction of the State . . . ." Fed. R. Civ. P. 4(e)(1). Mineral County proposes to serve unidentified water rights holders under the provision of the Nevada Rules of Civil Procedure permitting service by publication.

99.

Those Rules provide, in relevant part,

> In any action which relates to, or the subject of which is, real or personal property in this state in which such person defendant or corporation defendant has or claims a lien or interest, actual or contingent, therein, or in which the relief demanded consists wholly or in part of excluding such person or corporation from any interest therein, and the said defendant resides outside the state or has departed from the state, or cannot after due diligence be found within the state, or conceals [her]self to avoid the service of summons, the judge or justice may make an order that the service be made by publication of summons; said service by publication shall be made in the same manner as now provided in all cases of service by publication.

Nev. R. Civ. P. 4(e)(1)(ii) (Michie 1996).

The instant action is in the nature of a suit to quiet title to water rights; as such it is an action the subject of which is real property. By Order filed August 12, 1995, this court determined that all holders of water rights appurtenant to lands located within the Walker River system were necessary and proper parties to this action. Mineral County relies on the language in this rule permitting service by publication on defendants who "cannot after due diligence be found within the state."

Mineral County has compiled a list of the names and addresses of Walker River water rights holders from (1) the recorders' offices of the counties in Nevada through which the river flows, (2) the records of the Watermaster, (3) the records of the Nevada State Engineer, and (4) the records of Defendant Walker River Irrigation District. The County asserts that it has effected personal service upon all Walker River water rights holders which it has been able to identify. The County seeks leave to serve by publication pursuant to Nev. R. Civ. P. 4(e)(1)(ii) only those parties whose identity it has been unable to discover from any of the above-described sources.

The State of Nevada, the U.S. Board of Water Commissioners, and the Walker River Irrigation District, all resist Mineral County's Motion. They argue that Mineral County has not shown the requisite degree of due diligence sufficient to entitle it to serve any potential unidentified water rights holders by publication, as required by the express language of the rule. They argue that the County has not demonstrated to their satisfaction that these potential unidentified defendants reside outside of Nevada, have left the state, are concealing themselves to avoid service of process, or cannot be located through the exercise of due diligence. They seek to use to their advantage the fact that the County cannot identify these potential defendants. This argument reeks of the double bind. If the County knew these people's names, it would certainly be easier to locate them. It is precisely because their names are unavailable that the County seeks to notify all potential defendants of the instant action through summons by publication.

In an action to quiet title such as this one, a party plaintiff may acquire personal jurisdiction over unknown parties defendant on the basis of an affidavit stating "that the unknown defendants to be served by published notice of the pending suit were unknown and that their whereabouts could not be discovered after due inquiry and search has been made." Campbell v. Doherty, 206 P.2d 1145, 1150 (N.M. 1949) (internal quotation omitted). Prerequisite to service of summons by publication is a statement, by affidavit, of "the reasons why personal service cannot be made as well as the nature and extent of the investigation utilized to determine the whereabouts of potential defendants." Deer Park Lumber, Inc. v. Major, 559 A.2d 941, 943 (Pa. Super. Ct. 1989). Where, for example, a plaintiff in an action to quiet title to real property affirmed that he did not know the identity of the minor children of the deceased title owner, such affirmation was held sufficient to support service by publication on those children, where the published summons denominated them as the unknown heirs of the specified decedent. Archuleta v. Landers, 356 P.2d 443 (N.M. 1960). In the present action, given the attempts by the County to identify all the holders of water rights appurtenant to land located within the Walker River system, and given the County's forthright admission that the names of such holders which it has been able to acquire may not include all such holders, it seems not the least bit inappropriate to permit the County to notify as-yet-unidentified holders through summons by publication. Indeed, in its order dismissing the appeal in this case, the Court of Appeals has already favorably noted the possibility that the County could notify those as-yet-unidentified water rights holders in precisely the manner for which the County now seeks leave of this court.

The Due Process Clause of the Fifth Amendment to the Constitution of the United States constrains the exercise of judicial jurisdiction. A decree purporting directly and adversely to affect a person's legally protected interests -- such as the right to take or use water -- is void as in violation of the Due Process clause unless the party plaintiff employs a method of notifying such person of the pendency of the suit which is reasonably calculated to give them knowledge of the action at a meaningful time and in a meaningful manner. Personal service is not always required before a court adjudicates the legal rights of a natural person or of a corporation. If with due regard for the practicalities and peculiarities of the case, these conditions of notice are met, the Due Process Clause is satisfied. Mullane v. Central Hanover Trust Co., 339 U.S. 306, 314 (1950).

One issue remains for consideration. The Irrigation District, the State, and the Board of Water Commissioners point out, correctly, that because the Walker River flows across the California-Nevada border, a decree adjudicating water rights appurtenant to all lands situated within the Walker River system might naturally affect holders of water rights appurtenant to lands outside this State. Under the terms of Nev. R. Civ. P. 4(e)(1)(ii), service by publication in the present matter is proper only with respect to water rights appurtenant to Nevada lands, and not to lands in California. To the extent Mineral County seeks leave to serve by publication holders of water rights appurtenant to California real property, its request must therefore be denied.

For the foregoing reasons, **IT IS THEREFORE ORDERED** that the Motion (Doc. #88) filed by Proposed Intervenor Mineral County for leave to serve unidentified Defendants by Publication pursuant to Nev. R. Civ. P. 4(e)(1)(ii) is **HEREBY GRANTED**.

IT IS FURTHER HEREBY ORDERED that the Motion (Doc. #92) filed by Defendant Walker River Irrigation District to require Mineral County to identify and file a report concerning the status of service on each individual claimant to water rights appurtenant land located within the Walker River system is **DENIED**.

IT IS FURTHER HEREBY ORDERED that Proposed Intervenor Mineral County shall publish in the Miner County Independent News in Hawthorne, Nevada, the Record-Courier in Gardnerville, Nevada, the Mason Valley News in Yerington, Nevada, and the Review-Herald in Mammoth Lakes, Nevada, for a period of four (4) weeks, and at least once a week during said time, the following documents:

1. Summons to all holders of water rights appurtenant to lands located in the Nevada portion of the Walker River System who have not yet been served with process in this action;

2. Mineral County's Notice of Motion and Motion to Intervene (Doc. #2);

3. Mineral County's Proposed Petition in Intervention (Doc. #3);

4. Mineral County's Amended Complaint in Intervention (Doc. #20);

5. Mineral County's Amended Memorandum of Points and Authorities in Support of Mineral County's Amended Complaint in Intervention (Doc. #21); and

6. Mineral County's Motion for Preliminary Injunction (Doc. #22).

LANCE S. WILSON, CLERK

By Oma L. Rose
Deputy Clerk

IN THE UNITED STATES DISTRICT COURT

FOR THE DISTRICT OF NEVADA

UNITED STATES OF AMERICA, Plaintiff, WALKER RIVER PAIUTE TRIBE, Plaintiff-Intervenor, vs. WALKER RIVER IRRIGATION DISTRICT, a corporation, et al., Defendants.	)	In Equity No. C-125-ECR Subfile No. C-125-C **NOTICE IN LIEU OF SUMMONS**
MINERAL COUNTY, Proposed Plaintiff-Intervenor, vs. WALKER RIVER IRRIGATION DISTRICT, a corporation, et al. Proposed Defendants.	)	

TO: _____: (As _____ of

_____)

To the above-named Defendant:

You are hereby notified that a motion to intervene, proposed complaint-in-intervention, and motion for preliminary injunction by Mineral County, Nevada, claiming a right to a minimum level of water for Walker Lake, which would affect the water rights in the Walker River which you (or the entity on whose behalf you are addressed) possess, have been filed in the United States District Court for the District of Nevada, Reno, Nevada. You may, but are not required to, respond. If you choose to respond, the following schedule applies:

1. Responses to Mineral County's Motion to Intervene and Mineral County's Points and Authorities in support of its Motion to Intervene shall be served not later than _____, 19__;

2. Reply Points and Authorities in support of Mineral County's Motion to Intervene shall be served not later than _____, 19__;

3. No answer or other response to the proposed complaint-in-intervention will be required until a decision by the Court on Mineral County's Motion to Intervene and then only upon a schedule to be established by further order of the Court; and

4. No response to any motion for preliminary injunctive relief filed and served by Mineral County will be required until a decision by the Court on Mineral County's Motion to Intervene and then only upon a schedule to be established by further order of the Court.

Persons, corporations, institutions, associations or other entities properly served who do not appear and respond to Mineral County's Motion to Intervene shall nevertheless be deemed to have notice of subsequent orders of the Court with respect to answers or other responses to the proposed complaint-in-intervention or responses to any motion for preliminary injunctive relief filed and served by Mineral County.

If the proposed complaint-in-intervention is allowed to be filed, subsequent orders of the Court may provide that a judgment by default for the relief demanded in the complaint-

in-intervention may be taken against such properly served entities who do not respond as provided in such subsequent orders.

DATED this _____ day of _____, 19___.
