Attachment for Shirley Fletcher 4/9/13

BP/ARC offered that we could keep our wells (Domestic), and claims that the State of Nevada has stepped in and requires that the domestic wells be abandoned. To keep with the spirit of the agreement, BP/ARC could purchase a water right for each well owner which would enable us to keep our wells.

This would cost less than the cost of well abandonment.

BP/ARC should have known the State of Nevada would want the wells abandoned (closed) when they made the offer.

Peri and Sons abandoned 3 irrigation wells on Luzier which should have provided the aquifer with hundreds of acre feet of water no longer being pumped out of the water table.
