vs.	
WALKER RIVER IRRIGATION DISTRICT, a corporation, et al.,	

U.S. DISTRICT COURT DISTRICT OF NEVADA ENTERED & SERVED
JUL 16 2003
CLERK, U.S. DISTRICT COURT
BY: DEPUTY

The following background information is provided to aid in understanding the reasons for and what is required by this Order:

1. The Court has ordered that certain persons and entities be included as parties in this action because they own water rights within one or more of the nine categories set forth in Paragraph 3 of the Court's April 18, 2000 Case Management Order.

2. It is possible that some of the specific persons or entities who are served with a Waiver of Service of Notice in Lieu of Summons, Notice of Lawsuit, or a Notice in Lieu of Summons do not belong in this action, because, for example, they may have sold or otherwise conveyed the ownership of all water rights subject to this action prior to being served.

3. A change in ownership of a water right can occur in a number of ways and for a variety of reasons. Often a change in ownership of a water right occurs when ownership of the land on which the water is used changes. A change in ownership may involve a sale, a gift, a death or even a divorce. It may also involve estate or business planning decisions, such as conveyance to an intervivos trust or a limited liability company. Frequently, changes in ownership are accomplished by a deed. However, in an estate or divorce proceeding, they may be accomplished by an order of a court. These examples are not an exclusive list of all of the

206

ways in which a change in ownership may occur.

4. It is important that the Court and the Plaintiffs be notified if a person or entity who receives service by mail or personal service does not, in fact, have any ownership interest in a water right in any of the nine categories set forth in Paragraph 3 of the Court's April 18, 2000 Case Management Order. In addition, that person or entity need not be burdened with this litigation and, if there was a change in ownership, a new party may need to be added to the action. Before any such person may be omitted from this action, certain information and documents will have to be provided to the Plaintiffs and the Court.

Based upon the foregoing, it is hereby ORDERED as follows:

1. If any person or entity receiving service by mail or personal service has no interest in any water right within any of the nine categories set forth in Paragraph 3 of the *Case Management Order* (Apr. 18, 2000)[1], that person or entity shall notify the Court and the

A. The name and address of the person or entity who sold or otherwise conveyed ownership;

B. The name and address of each person or entity who acquired ownership; and

of the water rights at issue in this case of a Waiver of Service of Notice in Lieu of Summons and any Disclaimers of Interest and accompanying information and documents sought by this Order, Plaintiffs will review the materials received and, if appropriate, seek the Court's concurrence in omitting that person or entity filing such materials from this case.

6. If Plaintiffs do not receive a Waiver of Service of Notice in Lieu of Summons and must personally serve a person or entity that subsequently files a Disclaimer of Interest pursuant to this Order, Plaintiffs will also review the materials received and, if appropriate, seek the Court's concurrence in omitting the person or entity from this case, but that person or entity may be subject to paying the costs related to formal personal service on them.

7. Despite the above provisions, any person or entity who files a Disclaimer of Interest in this matter is ultimately responsible for the accuracy of this filing. Consequently, any person or entity who files a Disclaimer of Interest, but, in fact, has water rights subject to this litigation, shall nevertheless be bound by the results of this litigation.

8. Any person or entity subject to service under the Federal Rules of Civil Procedure who receives notice of this action in the manner provided by Federal Rule of Civil Procedure 4(d) remains subject to the duty to avoid unnecessary costs of serving the summons, even if that person or entity ultimately disclaims any ownership interest in any of the water rights described by Paragraph 3 of the Court's April 18, 2000 Case Management Order.
