Re: **Permit 57683**

Dear Mr. Taylor:

On behalf of the Harold J. Rosso Trust, enclosed please find a Report of Conveyance, Abstract of Title and supporting documents transferring a portion of Permit 57683.

Permit 57683 is owned by the Topaz Ranch Estates General Improvement District (TREGID) and lies within the Antelope Valley Hydrographic Basin (Basin 106).

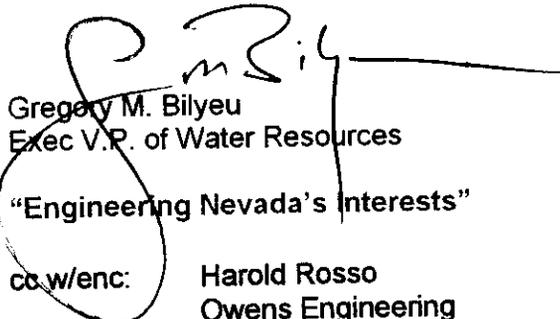

This conveyance is being made for the sole purpose of providing water rights for relinquishment to the State of Nevada on behalf of the Harold J. Rosso Trust for creation of new parcels to be served by domestic wells in Douglas County, Nevada. Mr. Rosso's property cannot be served by a public water system. An Affidavit of Relinquishment will be submitted to your office under a separate cover.

The conveyance of this portion of Permit 57683 reduces the total combined duty of all the water right owned by the TREGID by 6.06 acre-feet.

Thank you for your attention to this matter. Should you have any questions or require additional information, please do not hesitate to contact this office.

Sincerely,

Dear John:

On December 8, you spoke with Jeff Bensen in regards to road access across National Forest Land to the 360 acre parcel of private land located in Section 16, R4N, R24E in the Twin Lakes drainage. The parcel is located north of Honeymoon Flat Campground and Doc and Al's Resort.

The Alaska National Interest Lands Conservation Act of December 2, 1980, directs the Forest Service to authorize land owners access for reasonable use and enjoyment of their land. In this situation access across National Forest Lands is currently provided by existing roads coming off the Buckeye Road (Forest Road 017) and the Twin Lakes Road (County Road 420). Because these roads are in existence no permits or authorizations are required for the land owners to utilize the roads. However, if the land owners require changes to the roads or improved access to the property, the land owner must apply for and receive authorization from the Forest Service for the change in access.

I believe the above information will answer your question about access to the parcel of land in question. If you have any additional questions please contact Jeff Bensen at the above address and phone number.

Sincerely,

KATHLEEN LUCICH

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1 cubic feet per second, but not to exceed 2.92 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 31, 1996

Proof of completion of work shall be filed before October 31, 1996

Application of water to beneficial use shall be filed on or before August 31, 1997

Proof of the application of water to beneficial use shall be filed on or before October 31, 1997
