**STATUS REPORT SUBMITTED BY
THE UNITED STATES OF AMERICA
AND THE WALKER RIVER PAIUTE
TRIBE IN ADVANCE OF THIS
COURT'S STATUS CONFERENCE
OF APRIL 20, 2001**

The following constitutes a status report to the Court from the United States of America ("United States") and the Walker River Paiute Tribe ("Tribe") regarding issues listed by the Court in its minutes of the status conference of March 20, 2001 for discussion at the status conference of April 20, 2001. *Minutes of Court* (Mar. 20, 2001) (Mag. J. McQuaid). This report has been provided to the Court and designated parties in advance of the status conference.

STATUS REPORT SUBMITTED BY THE UNITED STATES OF AMERICA AND THE WALKER RIVER
PAIUTE TRIBE IN ADVANCE OF THIS COURT'S STATUS CONFERENCE OF APRIL 20, 2001

PAGE 1

139

1. "A modified version of Exhibit 4 concerning an order regarding transfers of water rights:"

The Court has directed the United States to revise its proposed Exhibit 4 to the *Memorandum of the United States of America and the Walker River Paiute Tribe Concerning the Identification of Counter-Defendants by Case Management Order Categories and Use of Notices of Lis Pendens* (Mar. 13, 2001) ("Mar. 13, 2001, Memo."). A revision of this proposed order is attached as Exhibit 1 to this status report and entitled *Proposed Order Regarding Transfers of Water Rights*.

In addition, the United States and the Tribe have attached a revision of a portion of proposed Exhibit 3 to the Mar. 13, 2001, Memo. At the status conference on March 20, 2001, the Court did not approve the proposed order set forth in Exhibit 3 for service in this matter. We have redrafted this Exhibit and submit it here as Exhibit 2 to this Status Report, entitled *Proposed Order – Disclaimer of Claims*, but have limited it to the issue of service on persons or entities no longer in possession of a water right. In the pleadings submitted to the Court prior to the March 20, 2001 status conference, the United States and the Tribe, as well as the Walker River Irrigation District, asserted the need for some sort of disclaimer to address the circumstance of service on persons and entities who no longer have a water right subject to this case. See *Memorandum of Walker River Irrigation District Concerning Procedures for Recording Notices of Lis Pendens and Concerning Identification of Counterdefendants by Case Management Order Categories* at 7 (Feb. 12, 2001); Mar. 13, 2001, Memo. at 12-13. There does not appear to be a disagreement on the need to address this issue.

Consequently, the proposed order set forth in Exhibit 2 attempts to address this situation. We ask that the Court consider it in the upcoming status conference and approve it for service in this matter.

We have circulated both revised exhibits among certain of the parties¹ for comment prior to the April 20 status conference. The Walker River Irrigation District ("District") has drafted its own version of these documents and is submitting them to the Court. We have not yet reviewed the District's drafts and, therefore, cannot comment on them. We are willing to review them and determine if there is common ground between the two sets of exhibits so that the parties might be able to agree on the contents of these proposed orders.

2. "Notice in lieu of summons:"

On August 30, 2000, the parties submitted to the Court, for its approval, four documents that the parties stipulated were appropriate for use in effecting service of the United States' and Tribe's first amended counterclaims. These documents are the following: 1. *Notice in Lieu of Summons*; 2. *Notice of Lawsuit and Request for Waiver of Service of Notice in Lieu of Summons*; 3. *Waiver of Service of Notice in Lieu of Summons*; and 4. *Notice of Appearance and Intent to Participate. Stipulation* (Aug. 30, 2000). *See also Status Report Submitted By the United States and the Walker River Paiute Tribe in Advance of this Court's Status Conference of October 16, 2000 at 2* (Oct. 13, 2000); *Minutes of Court at 2* (Oct. 16, 2001) (approving the forms submitted in the Stipulation). As stated in the stipulation to which these documents were attached, the parties reserved

^{1/}

These are the same parties we have served with these materials by facsimile transmission.

the right to amend these documents, if necessary, based upon their agreement regarding the notice of pendency of action. *Stipulation* at 2 (Aug. 30, 2000).

The United States and the Tribe have reviewed these four documents to identify where the documents might require amendment, based on the current status of case management. First, the *Notice of Lawsuit and Request for Waiver of Service of Notice in Lieu of Summons* includes a list and brief description of each document included in the service package. Based on the current status of case management, this list should also include a description of the *Proposed Order Regarding Transfers of Water Rights*, Exhibit 1 hereto, once that document is completed and approved by the Court. Second, the notice and waiver document should include a paragraph describing the transfer order and any actions required thereunder, in a similar fashion as the notice and waiver document addresses the other documents in the service package. Third, Paragraph 2 of the *Waiver of Service of Notice in Lieu of Summons* should include a reference to the final version of the *Proposed Order Regarding Transfers of Water Rights*.

Based on our review of the documents included in the *Stipulation* (Aug. 30, 2000), we also believe that additional changes may be required to these documents if other documents are approved for inclusion in the service package, if any group of potential counter-defendants is certified as a class, or if there are any additional amendments to the first amended counterclaims. The United States and the Tribe are in the process of finishing a joint motion seeking certification of one or more defendant

classes in this matter, pursuant to FED. R. CIV. P. 23.² That motion is currently under review within the United States Department of the Interior and will likely be filed next week. The United States and the Tribe are also in the process of reviewing their respective first amended counterclaims for possible amendments and anticipate that this process and related reviews within the United States Department of the Interior and United States Department of Justice may be completed by mid-June.

3. "A reasonable time frame from the U.S. and Tribe when they may complete a service list:"

As discussed during the status conference of March 20 and in our Mar. 13, 2001, Memo. at 15, the United States and the Tribe wish to conduct actual service in phases according to CMO category. Our understanding of the Magistrate Judge's comments during the status conference is that the Court has approved this general approach to service.

Our intent, then, would be to identify in the next 60-90 days an initial category of persons and entities for service and to initiate that service within 60-90 days thereafter.³ Further, we wish to complete service on this initial group, to the extent possible, before moving on to initiate a second phase

2/

We had raised this issue as a matter of case management regarding the domestic users in Category 3.c. of the *Case Management Order* (Apr. 18, 2000) at the status conference of March 20, 2001, and in our previous Mar. 13, 2001, Memo. at 9, and the Walker River Irrigation District and the Court requested briefing on the issue.

3/

This schedule assumes, among other things, that the Court approves in the near future all materials to be served and addresses any objections thereto from the parties. The United States and the Tribe have not yet received the Court's approval to commence service of their first amended counterclaims.

of service on a different category of defendants. Service in this manner would include, where necessary, formal service in a manner authorized by the Federal Rules of Civil Procedure and requests of the Court for costs of such service. *Case Management Order* ¶8 (Apr. 18, 2000) (“CMO”). To the extent that any group of persons and entities to be served are certified for treatment as a class, pursuant to FED. R. CIV. P. 23, we may wish to propose to the Court an alteration of this initial plan.

One issue that we wish to discuss with the Court and parties is the application of Paragraph 9 of the Case Management Order to the service process. CMO ¶9. Requiring the United States and the Tribe prepare a list of persons we intend to serve and allowing the existing parties time to comment on the list is impractical and goes beyond any requirement of due process governing our efforts to identify and serve persons and entities in this matter. Consequently, we wish to discuss a modification of this provision with the Court pursuant to its authority under Paragraph 19 of the CMO. If necessary, we seek a schedule for briefing this issue.
