1996, pursuant to the Court's Order of November, 1995;

(b) Mineral County has exercised due diligence in finding and serving process in that Mineral County has made a good faith and extensive effort to complete service of process and has, in fact, served substantially all known water rights' holders on the Walker River; and

(c) Mineral County believes unascertained and unascertainable parties exist that may hold entitlement or water rights in the Walker River;

(d) Mineral County has expended approximately \$80,000.00 in expenditures and service to accomplish service and any further expenditures to investigate and determine parties will be so financially burdensome as to foreclose Mineral County from pursuing its claim;

This motion is based upon the accompanying points and authorities, the declaration of Treva J. Hearne, counsel for Mineral County, the papers and records on file herein and the Memorandum of the Ninth Circuit Court of Appeals.

POINTS AND AUTHORITIES

I

RULES PERTINENT TO SERVICE BY PUBLICATION

Pursuant to Federal Rules of Civil Procedure, Rule 4(e), service according to "the law of the State in which the district court is located . . .". The Nevada Rules of Civil Procedure further provide for publication in Rule 4(e)(1)^{1/}

This Court's Order and direction affirms that the holders of entitlement to water rights on the Walker River are necessary or proper parties to this action (see Order, August 12, 1995). This case involves a property right, water rights to the Walker River.

Nevada Rules of Civil Procedure, Rule 4, provides as follows:

(4)(e)(ii). Property. In any action which relates to, or the subject of which is, real or personal property in this state in which such person defendant or corporation defendant has or claims a lien or interest, actual or contingent, herein, or in which the relief demanded consists wholly or in part of excluding such person or corporation from any interest therein, and the said defendant resides out of the state or has departed from the state, or cannot after due diligence be found within the state, or conceals himself to avoid the service of summons, the judge or justice may make an order that the service be made by the publication of summons; said service by publication shall be made in the same manner as now provided in all cases of service by publication.

///

^{1/} Service by Publication is proper "when the person on whom service is to be made . . . cannot, after due diligence, be found . . .".

MINERAL COUNTY'S SERVICE IS A PARTICULARLY ATTRACTIVE CANDIDATE FOR SERVICE BY PUBLICATION

Mineral County has compiled a list of water rights holders from the records of the County Recorders of the counties wherein the Walker River is located, from the records of the Watermaster, from the records of the State Engineer and from the records of the Walker River Irrigation District.

During April, 1995, request for waivers of service of process and the pleadings were served on the list of water rights holders of the Walker River (see Affidavit of Kelvin Buchanan, filed in C-125-C in August, 1995). During May and June of 1995, Walker River Irrigation District, a party herein, and Walker River Users Group, sent letters to Walker River water rights holders encouraging them not to waive service (see Affidavit of Louis Thompson, filed in C-125-C, August, 1995). A small percentage of waivers were returned (see Affidavit of Kelvin Buchanan, filed in C-125-C, August, 1995).

The Court then ordered Mineral County to personally serve several hundred persons as potential water rights holders in the Walker River by October 1, 1995 (see, Order, August, 1995). Citizens and supporters of Mineral County accomplished service on nearly four hundred (400) persons during September, 1995 (see Affidavit of James Spoo, filed in C-125-C, September 28, 1995).

On September 29, 1995, the Court granted an extension of time in which to complete service, which gave Mineral County until February 1, 1996, to complete service. Mineral County has completed service pursuant to the Court's Order prior to February

1, 1996, and filed the Proofs of Service. Mineral County, with its small budget, expended in excess of \$78,000.00, for service of process in this matter, plus \$10,000.00, spent by the Walker Lake Working Group. Volunteers assisted by donating more than 1000 man-hours for serving process (see Affidavit of Treva J. Hearne, filed February 1, 1996).

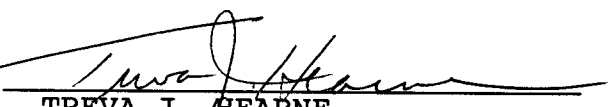

Certainly, state law contemplates service by publication on water rights holders. See Section 533.095 N.R.S. The notice provisions of the state law used for water adjudication are pertinent and applicable in any water rights litigation.

Mineral County has exercised due diligence to ascertain, find and serve the potential water rights holders. Mineral County has personally served a significant number of potential water rights holders. Publication, plus mailing, of service will assure that service of process is complete.

For the above-stated reasons, Mineral County, Nevada, respectfully requests that this Court issue an Order of Publication for Mineral County's intervention documents.

DATED this 20th day of February, 1997.
