are at unknown locations. Those names have been submitted to the Walker River Irrigation District staff requesting any personal knowledge that they may have regarding the location of these persons. Fifty-nine of these persons are unserved and may be new additions, but can more than likely be found. Twenty-four persons are located out of the state of Nevada and not in the Walker River Basin in California.

Mineral County requests that the Court make a ruling that if a predecessor in interest was served, then the service is good as to the successor in interest if it was good as to the predecessor.

Mineral County further requests that the Court allow Mineral County to publish as to all persons who receive mail at Post Office Box numbers and cannot be located by WRID nor by the Community Development office of the local county where they are located.

Attached hereto is the final list prepared by Mineral County for service of process of its Notice in Lieu of Summons and a revised caption for the Mineral County Notice in Lieu of Summons to reflect that final list.

DATED this 10th day of October, 1997.
