Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 3 of 88 RENO, NEVADA, MONDAY, OCTOBER 27, 2014, 10:06 A.M. 1 2 ---000---3 Thank you, please be seated. 4 THE COURT: 5 Welcome. 6 We're here in one part of our ongoing Walker River 7 case, C-125, and this is C-125-C, but it's involving, of 8 course -- the participants are here for B as well. 9 Let me ask first for appearances, then we'll talk 10 about procedure. Please. 11 MR. DePAOLI: Gordon DePaoli on behalf of the 12 Walker River Irrigation District, your Honor. 13 MR. FERGUSON: Dale Ferguson on behalf of the 14 Walker River Irrigation District. 15 MR. STOCKTON: Bryan Stockton, Nevada Department 16 of Wildlife, State of Nevada. 17 MS. URE: Therese Ure and Matt Curti with 18 Schroeder Law Office representing Circle Bar N Ranch and Mica 19 Farms. 20 THE COURT: Thank you. Please. 21 MR. HERSKOVITS: Yes, good morning, your Honor. 22 This is Simeon Herskovits representing Mineral County. Here 23 with me are the Mineral County District Attorney Sean Rowe and 24 his assistant DA. 25 THE COURT: Thank you.

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 4<sup>4</sup> of 88

1	MR. GUARINO: Good morning, your Honor. Guss
2	Guarino for the United States. I'm also appearing with David
3	Negri for the United States as well.
4	THE COURT: Thank you.
5	MR. WILLIAMS: Good morning. Wes Williams, Jr.,
6	on behalf of the Walker River Paiute Tribe.
7	THE COURT: Thank you.
8	MR. SPRINGMEYER: Good morning. Don Springmeyer
9	for the National Fish and Wildlife Foundation.
10	THE COURT: Thank you.
11	MS. SIMON: Good morning, your Honor. Stacey
12	Simon on behalf of Mono County.
13	THE COURT: Thank you.
14	And on the telephone, please? Anyone on the
15	telephone? No.
16	MS. MAHANEY: Erin Mahaney, State Water
17	Resources Control Board.
18	THE COURT: Thank you.
19	All right. Now, we're here for oral argument on the
20	motion to dismiss with respect to 125-C, but as you know,
21	these matters are consolidated.
22	I've told you that I'm dealing with them together,
23	and I've also told you that I probably would not rule just on
24	one without ruling on the other. So I need to confirm my
25	understanding of where we are on 125-B motions.

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 5<sup>5</sup> of 88

1	The last thing that I saw, of course, was the Ninth
2	Circuit stayed the government's obligation to submit response,
3	but the government has gone ahead and filed a response
4	contrary to their own stay.
5	So is there a reply filed or is that matter on hold?
6	What's the understanding?
7	MR. DePAOLI: Your Honor, there is a reply
8	filed.
9	THE COURT: Good. So it's fully briefed.
10	MR. DePAOLI: Yes, your Honor.
11	THE COURT: Okay.
12	MR. GUARINO: Good morning, your Honor.
13	THE COURT: Good morning.
14	MR. GUARINO: Again, Guss Guarino, for the
15	record, representing the United States.
16	With respect to the Ninth Circuit matter, the Court
17	is correct that the Ninth Circuit stayed the United States'
18	obligation to file. However, shortly after the Court granted
19	the United States' motion to reconsider concerning the
20	appearance of counsel, the Ninth Circuit lifted the stay
21	THE COURT: Is there an order that lifted the
22	stay?
23	MR. GUARINO: I believe that's correct. And
24	so
25	THE COURT: I didn't see that, so that's what

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 6° of 88

1 I'm seeking. 2 MR. GUARINO: Yes. And that's why, on the 17th 3 of June, the United States, under signature of counsel, filed our response, and that response was exactly the same response 4 that was lodged on the 30th to which opponents or movants and 5 6 those associated with the movants replied. 7 THE COURT: Okay. We have not yet, however, set 8 our argument on that matter. 9 MR. GUARINO: That's correct. 10 THE COURT: All right. I will instruct my 11 deputy clerk to -- at your convenience, to set an oral 12 argument date. 13 I'm going to receive your oral arguments here, but I will not take it under submission until on or after the date 14 15 for oral argument in 125-B. 16 MR. GUARINO: Your Honor, with respect to that 17 matter, in the Court's most recent orders the Court indicated 18 that movants' motions to dismiss were dismissed without 19 prejudice subject to --20 THE COURT: Rebriefing --21 MR. GUARINO: -- rebriefing --22 THE COURT: -- with proper notice. 23 MR. GUARINO: -- with proper notice. 24 THE COURT: Okay. 25 MR. GUARINO: -- under the superseding order

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 7<sup>7</sup> of 88

1	that the Court just signed and put into place.
2	THE COURT: Right. So are we doing oral
3	argument today, or were the parties going to seek additional
4	briefing opportunity and/or wait for any objections filed by
5	newly-served persons?
6	MR. GUARINO: The way I know I had read the
7	orders that the Court just recently described
8	THE COURT: Adopted.
9	MR. GUARINO: we were not going to address
10	the motion to dismiss on 125-B today, we were only going to
11	address the motion to dismiss on 125-C.
12	THE COURT: That's correct.
13	MR. GUARINO: And subject to the refiling the
14	refiling of the motions, and then the response
15	THE COURT: In 125-B.
16	MR. GUARINO: In 125-B.
17	THE COURT: Okay. So just for clarity, I'm
18	going to receive the oral arguments, but I am not going to
19	take it under submission until after the oral arguments on
20	125-B, okay?
21	That's consistent with my rationale previously. I
22	told you I didn't want to be whipsawed by the Ninth Circuit
23	with inconsistent rulings on doctrinal matters, and so it's
24	very likely that either in a same order, or in contemporaneous
25	orders, I'll send it all up to the Ninth Circuit at one time.

#### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 8<sup>8</sup> of 88

1	Consequently, Madam Clerk, this matter will not be
2	under submission until after oral argument in 125-B.
3	As you know, they're all one case, we've just
4	simply Judge Reed, consistent with Judge Reed's
5	designation, he did not sever the cases, he just simply
6	required separate files, they are consolidated for purposes of
7	trial as far as I'm concerned or even common issues of motions
8	to dismiss.
9	So I will take the oral arguments today just like
10	I've previously taken the briefs, but it will not be under
11	submission until after that oral argument.
12	I may decide to rule separately, but that's a matter
13	until after I see the briefing because we're talking about
14	some of the same issues, until after I see the briefing on
15	125-в.
16	All right. What else preliminary?
17	Let's hear the motions, please.
18	And I've read the pleadings, except the 125-B
19	pleadings, I have not read those, and, of course, you
20	incorporated some of those in your final reply. So you don't
21	need to be redundant, but that you may emphasize, if you will,
22	and tell me where the real fires are, and then I'll address
23	them, of course, in a final ruling.
24	MR. DePAOLI: Yes, your Honor. Gordon DePaoli
25	on behalf of the Walker River Irrigation District.

#### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 9<sup>9</sup> of 88

1	As your Honor knows, the motion that we filed was a
2	motion to dismiss and, in the alternative, a motion to stay.
3	THE COURT: Certify and stay, or stay.
4	MR. DePAOLI: The motion to dismiss is simple.
5	It's based on the proposition that if Mineral County is
6	seeking a priority water right for Walker Lake under its
7	amended complaint, which is, I think, one construction of it,
8	that there's no jurisdiction in the Court because the Court
9	does not have retained jurisdiction to hear it and because it
10	doesn't arise under the laws, constitution, laws or treaties
11	of the United States but, rather, is a matter of state law.
12	Mineral County in its response does not seem to
13	dispute that the any claim it has is based on state law.
14	However, it does argue if the claim is construed as a claim
15	for a priority water right, that the Court has jurisdiction
16	based upon its retained jurisdiction, and on that issue, the
17	United States and the Tribe weigh in because the scope of the
18	Court's jurisdiction bears on some of the claims that the
19	United States has raised in the B subproceeding.
20	I think Mineral County should be taken at its word
21	that it's not seeking a water right for Walker Lake, but,
22	rather, is seeking to have the Court modify the decree under
23	the Public Trust Doctrine, and we could leave the scope of the
24	Court's jurisdiction, retained jurisdiction or exclusive
25	jurisdiction, to the B proceeding although the United States

#### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 10 of 88

1 and the Tribe did file replies in this subproceeding C which 2 raises some of their arguments that they make in B which I 3 incorporated a reply by reference.

So I am prepared to address the extent of the Court's jurisdiction should Mineral County's claim be construed as one for a priority water right, and I will do so unless the Court wants to hear that later when we argue the B motions.

9

THE COURT: No, please.

10 MR. DePAOLI: With respect to the stay motion, 11 the District's stay motion seeks a stay to get rulings on 12 three questions of Nevada law, first and foremost being the 13 relationship between Nevada's water law and the public trust 14 doctrine, whether a county is authorized to bring a public 15 trust claim and whether there are administrative remedies to 16 exhaust.

On the jurisdictional issue, your Honor, the United States and the Tribe make an argument broader than that that Mineral County makes. The United States and the Tribe argue that this Court has jurisdiction to hear and determine all claims to water from the Walker River, whether based on state or federal law, simply by reason of the fact that it entered the decree, the Walker River Decree, in 1936 and 1940.

24The United States takes it even a step further and25argues that the Court has that exclusive jurisdiction over all

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 11 of 88

1	sources of water within the entire Walker River Basin.
2	I think that it's important to at least understand
3	what I am talking about when I argue that the Court does not
4	have the jurisdiction to determine and hear all claims to
5	water from the Walker River, and that is related to state law
6	claims and claims based upon appropriation.
7	Since 1905 in Nevada and 1914 in California, no one
8	can obtain an appropriative water right without first going,
9	in Nevada, to the Nevada State Engineer and, in California, to
10	the California State Water Resources Control Board, and
11	obtaining a permit.
12	THE COURT: And, of course, the decree did
13	nothing to alter that. In fact, the decree recognized that
14	the rights are created under state law and you'll follow the
15	state law procedures for obtaining that right. Right?
16	MR. DePAOLI: Yes. Yes. And that's what I mean
17	is the Court simply is not whether it has in rem
18	jurisdiction or exclusive jurisdiction, it has not become the
19	substitute for the state engineer in Nevada or the state board
20	in California as to appropriative water rights.
21	THE COURT: And the decree recognized that.
22	Even though there's a right to modify, the decree recognized
23	we're relying on state law and state law structure and
24	procedure as far as establishing a right, right?
25	MR. DePAOLI: Correct.

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 12 of 88

1	THE COURT: Now, let me ask you the devil's
2	advocate question though that occurs to me.
3	As you've already recognized, there's two possible
4	interpretations of what the public trust doctrine means. One
5	is it's creating a new water right, and there I think I agree
6	with you.
7	But another interpretation is it's not creating a
8	new water right, it's simply recognizing the defeasible nature
9	of the water rights granted previously.
10	In other words, the doctrine is only recognized more
11	recently, the Nevada Supreme Court has recognized it here, and
12	what it specifies is that it applies to every right previously
13	granted by the state engineer.
14	In other words, if the state engineer maybe not
15	obvious at the time, but if the state engineer granted a water
16	right, an appropriative water right, way back when, and
17	ignored the public trust limitation, that right is a
18	defeasible right.
19	Just like I can grant you property until you die or
20	until you no longer use the property for a school site. I can
21	grant you, school district, the right to property until you're
22	no longer using it for a school site, and then the title
23	defeases, it comes back to me.
24	That, in essence, would be the argument, that
25	they're not asking for a new water right, they're simply

#### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 13 of 88

1 asking for recognition that what the water district got was a 2 defeasible title, a title that's subject to the public trust 3 doctrine.

And, of course, maybe the argument -- one of the arguments you'll want to make is, boy, that opens it to the world. That means nothing is settled. That means every decree is not eligible for *res judicata* effect. That means *Nevada versus U.S.* was wrong, that what you got was a defeasible title unless and until the Walker Lake is impaired by a violation of the public trust.

11 So, in other words, the other interpretation which 12 I'm asking you to explain to me, or to counter it, specifies 13 not a request for a new water right but a defeasible title 14 that was granted to the water district in the upstream users. 15 MR. DePAOLI: Your Honor, I think that is the 16 other argument, that the water rights that were granted under 17 state law can be limited in order to meet public trust 18 requirements.

However, I think that that really is the issue that needs to be looked at under the -- if, in fact, the Nevada court says public trust doctrine applies to the use of water, then I think the question you pose about whether it's defeasible or not defeasible needs to be looked at in the analytical scheme that the Court adopted in the *Lawrence* case, and, that is, it's my position that the legislature intended Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 14 of 88

1	that the water rights not be defeasible, and that the
2	THE COURT: Now, what in the Lawrence case tells
3	me that?
4	MR. DePAOLI: Pardon?
5	THE COURT: What in the Lawrence case
6	MR. DePAOLI: I don't think anything in the
7	Lawrence case tells you that.
8	THE COURT: So Lawrence isn't going to instruct
9	me on whether this is defeasible title or new water right.
10	MR. DePAOLI: I think what Lawrence will
11	instruct on, if, in fact, the doctrine applies to the use of
12	water, is the analytical scheme of did when you look at
13	what the legislature did with Nevada's comprehensive water
14	law, was it a dispensation of the use of the water for a
15	public purpose, did the state receive fair consideration for
16	the dispensation, whether the dispensation satisfies the
17	special obligation to maintain the trust, and to what extent
18	should deference be given to the legislature.
19	And I think from our perspective
20	THE COURT: On the second to last question, did
21	the dispensation what was the question that you posed? Did
22	the dispensation satisfy
23	MR. DePAOLI: Yes.
24	THE COURT: a legislative declaration that
25	the dispensation satisfy the trust obligation. Pose that

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 15 of 88

1	question to me. I don't quite understand it.
2	MR. DePAOLI: The third element in the Lawrence
3	test for analyzing whether the legislative action is or is not
4	consistent with the public trust doctrine was whether the
5	dispensation here, the right to use water, satisfied the
6	state's obligation to maintain the trust for use and enjoyment
7	of future generations.
8	And that's where, from our perspective, I think when
9	one looks at the whole of the water law, and in particular the
10	parts of the water law
11	THE COURT: You're going to have to support that
12	argument a little bit for it to win with me because I don't
13	understand when the public trust obligation isn't fully
14	understood, let's say because when was the water law
15	adopted? At federal government insistence, of course, they
16	gave motivation to all of the states to adopt at least the
17	western states, was that 1905 or 1915?
18	MR. DePAOLI: Initially in 1905, your Honor, and
19	then in 1913 it was made much more comprehensive than the 1905
20	statute.
21	THE COURT: Uh-huh, that's our Senator Newlands.
22	And the federal government provided motivation for
23	states to adopt a structure, right?
24	MR. DePAOLI: I believe so, yes.
25	THE COURT: So what can you tell me, either in

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 16 of 88

1	the statute or in the legislative history, that says the
2	legislature intended this to be a full dispensation
3	accomplishing all of the objectives of the trust, especially
4	when the legislature maybe they didn't understand that what
5	they were doing was allowing overappropriation of a river
6	stream that would in effect violate the public trust.
7	MR. DePAOLI: I think, your Honor, what the
8	legislature and obviously it's not easy to put what a
9	20th early 20th century legislature had in mind in the 21st
10	century.
11	But, I think, importantly from the state's
12	perspective, first and foremost, in order for this state to
13	develop and move forward both then and now, there had to be a
14	reliable water law on which persons could rely in their
15	investment and in their development of the state, and
16	THE COURT: Well, now you use the word rely, and
17	that's a little more critical to the analysis than I think
18	both of us have considered.
19	But you're going to have to support this argument a
20	little more strongly from the legislation itself, from the
21	overall view of the legislation, that this was intended to be
22	a fulfillment, or at least a declaration of fulfillment, of
23	the public trust doctrine.
24	Because what the problem that occurs to me is how
25	is the legislature even aware of either overappropriation at

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 17 of 88

1	that time or that the scheme they were setting up was allowing
2	overappropriation of a stream? How would they even have been
3	aware of that such that they could have intended this to be a
4	declaration of fulfillment of the public trust doctrine?
5	Do you see what my concern is?
6	MR. DePAOLI: I understand that, and I don't
7	think it needs to be a declaration by the legislature that it
8	fulfill the public trust.
9	I think what you have to look at is whether the law,
10	as it was structured and as it was made with the intention of
11	making water rights reliable, left open the way to meet the
12	public trust, and I think our argument, your Honor,
13	is that and it's apparent throughout the state
14	THE COURT: Well, there's certainly a defect in
15	that argument. I mean, if they left it open for a way to meet
16	the obligation of the public trust, then they left it open to
17	the state engineer to grant rights into the future which would
18	violate the public trust.
19	In other words, assuming that there's a public trust
20	obligation by the state I mean, one of the questions we
21	haven't hit yet is standing, why in the world is Mineral
22	County standing here instead of the state of Nevada. But
23	we'll address that. That comes under the parens patriae
24	authority and right of the county.
25	But my question now is, if the water law structure

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 18 of 88

1	intended to allow the state to honor the public trust, and
2	they didn't, the state violated the public trust by damaging
3	Walker Lake with the further granting of rights, the further
4	honoring of rights, the lack of limitation on those rights,
5	then that's a violation of the trust, and, clearly, the Court
6	can't countenance that.
7	If the fact of the matter today is that the Walker
8	Lake has suffered because of a violation of the trust pursuant
9	to the water law authority that's given to the state, then how
10	do I not say that that was defeasible title, that was a
11	violation of the trust, the state of Nevada allowed the
12	structure that would allow it?
13	MR. DePAOLI: I think, your Honor, you have to
14	look at how the water law developed.
15	First, there were two aspects to it. Before 1905,
16	Nevada law said the way you establish a water right is you put
17	the water to beneficial use.
18	After 1905
19	THE COURT: You need an engineer's
20	MR. DePAOLI: you had to apply to the state
21	engineer.
22	THE COURT: Right.
23	MR. DePAOLI: And since 1905 the Nevada State
24	Engineer has been required to consider the public interest in
25	granting water rights.

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 19 of 88

1	The legislature in 1905 also said, and said again in
2	1913
3	THE COURT: So that's one thing you've given me.
4	The statute itself requires the state engineer to consider the
5	public interest.
6	MR. DePAOLI: Public interest, yes.
7	THE COURT: And gives the state engineer the
8	authority to do so. In other words, on behalf of the state,
9	not on behalf of Mineral County or XYZ user who says I'm
10	also a recreational user who says I'm also one with
11	standing, the state said no, we're going to have an
12	administrative tribunal, an administrative process with the
13	authority and right to view the public interest.
14	That's I think that's one good argument.
15	MR. DePAOLI: The other aspect, your Honor, is
16	in that same legislation, the court the legislature said
17	that this law shall not impair rights vested under,
18	essentially, the Nevada common law.
19	And I think the important aspect, and this is
20	happening not just
21	THE COURT: Repeat that again.
22	MR. DePAOLI: The legislature, when it enacted
23	the law in 1905 and again in 1913, specifically
24	THE COURT: And it has a clause that says
25	MR. DePAOLI: Specifically says that rights in

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 20 of 88

1	existence at the time of the enactment of the law will not be
2	impaired by the provisions of this statute.
3	And the Nevada courts have essentially held that the
4	rights established under the common law are were protected
5	against any impairment by the statutory water law.
6	THE COURT: Now you're hitting on a very
7	critical issue that hopefully both sides will address and
8	that's the reliance factor. And, as we know, there's no
9	federal common law, we're talking about state statutory and
10	common law.
11	MR. DePAOLI: Yes.
12	THE COURT: And the state statute itself says
13	there will be no impairment of vested rights.
14	Do we have any Supreme Court authority that tells us
15	if now a court or a user or a legislature wants to impair that
16	vested right, it can only do it prospectively, it can't do it
17	retroactively?
18	MR. DePAOLI: There are some cases that not
19	in this context, your Honor, but there are some that dealt
20	with the issue of the extent to which the doctrine of
21	forfeiture applied to rights established under the Nevada
22	common law versus back when that case was decided, the
23	forfeiture provision
24	THE COURT: Forfeiture is a matter of
25	defeasibility, isn't it?

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 21 of 88

1	MR. DePAOLI: Yes, your Honor.
2	THE COURT: In other words, you have the title,
3	and you can rely on that title, but the title has a defeasance
4	provision. You can forfeit it, or you can abandon it. It's
5	part and parcel of the title, it's right in the title.
6	And, of course, that's what they're arguing the
7	public trust doctrine is, too, it's a defeasance clause right
8	in the grant from the state engineer.
9	But what you're telling me is I have no basis to so
10	rule, or even if I think I do, I need the state Nevada
11	State Supreme Court's decision on whether it's defeasible
12	title or whether it's seeking a new water right.
13	MR. DePAOLI: Whether and whether the law as
14	it's written meets those tests.
15	And the one part of the water law that I think is
16	extremely important in this context, your Honor, is the
17	ability that the legislature included in the law to change
18	existing water rights established for irrigation to other uses
19	that meet 21st century needs, and that is what is being used
20	not just on the Walker River, but on the Truckee River, on the
21	Carson River
22	THE COURT: Right.
23	MR. DePAOLI: to meet these kinds of values
24	today
25	THE COURT: For example, the state and the

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 22 of 88

what is it, I'm sorry, the society, are buying up water 1 2 rights. 3 MR. DePAOLI: Yes, your Honor. THE COURT: And they want to change the use. 4 Of course, at the time these water rights --5 probably when they were granted, the state law didn't provide 6 7 for an in-stream use but now it does. 8 MR. DePAOLI: Yes. THE COURT: Now, we recognize that use as a 9 10 potential beneficial use. 11 So that's a question not for today, I don't think, 12 but that's a question for another day. And I don't see any 13 reason why the law wouldn't allow that, especially Nevada 14 common law, unless it's in derogation of a priority water right upstream or downstream, whatever, a priority over and 15 16 above the one that they want to change use and/or diversion 17 point. But that's an argument for another day, right? 18 MR. DePAOLI: Yes, and there's actually a state engineer decision that's pending in the main case related to 19 20 that in the C-125. 21 THE COURT: That's right. 22 Well, I did have one more question, then I ought to 23 let you finish your argument, and that's this reliance factor. 24 The statute says no change intended for vested 25 rights. That provision certainly applies to pre-1905

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 23 of 88

1	recognized rights. Does it also apply to post-1905 state
2	engineer granted rights, that same statutory provision?
3	MR. DePAOLI: No. The way it was written, your
4	Honor, and I don't have it with me, it essentially said rights
5	initiated under law prior to 1905 shall not be impaired by the
6	provisions of this statute.
7	THE COURT: No intent
8	MR. DePAOLI: It doesn't say
9	THE COURT: Uh-huh. And I'll ask my question in
10	a moment, but what's striking a bell with me is I've had this
11	issue with respect to grazing rights.
12	You know, we've all water rights are state,
13	grazing rights are federal. And when the federal government
14	took it back in 1934 or so, included in the statute is a
15	similar clause, no vested right is intended to be impaired.
16	That's right in the Grazing Act. This is a similar provision
17	under legislative enactment.
18	But what prevents the state legislature from saying,
19	hey, now, 2014, we intend to impair, we want to impair,
20	because now there's an emergency need. Washoe doesn't have
21	enough water for urban needs. Hawthorne doesn't have enough
22	water for its urban needs. And so we must impair those
23	expectations that previously existed, we intend to limit by
24	50 percent all granted priority rights.
25	What prevents the legislature from doing that?

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 24 of 88

1	MR. DePAOLI: Well, probably nothing prevents
2	the legislature from doing that. The question would be
3	whether or not, if they did that, would that in some way or
4	another be some sort of a taking for which compensation would
5	be required, your Honor.
6	THE COURT: Now, the California Supreme Court
7	said it's not a taking, right?
8	MR. DePAOLI: The California Supreme Court in
9	the Audubon case essentially indicated that the right could be
10	effected in order to meet a public trust
11	THE COURT: Because it's defeasible title.
12	MR. DePAOLI: Right. But the California Supreme
13	Court expressly said that there was no requirement that the
14	water right be defeased, so to speak, in order to meet the
15	public trust.
16	It acknowledged directly that we can't live in the
17	west without diverting water and making use of water in ways
18	that are clearly going to harm the natural system. It left
19	for the state board ultimately, in that case, to decide to
20	what extent, if any, there would be an effect on that water
21	right.
22	THE COURT: So what's the key analytical steps
23	for me to decide whether there's a taking or not?
24	If the state they wrote the law, and if the state
25	decides today they want to impair those rights by 50 percent

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 25 of 88

1	because the people of Hawthorne are running out of water, and
2	that seems to them, the state legislature, to be more
3	important than the agricultural use, what, what makes that a
4	taking versus not a taking?
5	MR. DePAOLI: Well, it I think it would come
6	down to what the legislature granted in the first instance,
7	your Honor.
8	If the legislature granted a right that was
9	defeasible, then the legislature could argue that there is no
10	taking or simply exercising our regulatory authority.
11	THE COURT: I think that's a terrific point. In
12	other words, at some point in time the Nevada legislature,
13	upon Nevada's incorporation, upon its recognition as a state,
14	was given the right to grant titles.
15	As we all know, heaven forbid, the United States
16	kept 80 plus percent of the land, but they gave, in the
17	legislation, right to so many acres or subsequent designation
18	of acreage for the state of Nevada to grant title and patent.
19	And so the state did, it granted patent rights, and
20	you and I own our own homes and the land underneath our home
21	by virtue of those patent grants.
22	What makes it a taking if the state of Nevada were
23	now, in 2014, to say, Mr. DePaoli, the title to your house has
24	a defeasibility provision. If we need it for a county
25	courthouse, it's defeasible. Is that a taking? And why is

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 26 of 88

that a taking versus a nontaking? 1 2 MR. DePAOLI: It's a taking because the initial 3 grant to me did not include any such --THE COURT: There was no such reservation. 4 5 MR. DePAOLI: -- reservation. 6 THE COURT: So that's normal property law. 7 That's what I learned in law school. 8 And that's why, of course, the state has 9 reservations for the mineral rights, the oil that exists 10 underneath your house, I'm sure there's barrels of it, or the 11 That's why the state included those reservations in aold. 12 their grants. 13 So is there any analogy to that system in the water 14 system in legislation that says this will be a taking? 15 MR. DePAOLI: I think so, your Honor. 16 I think for the reasons that I expressed, that the 17 legislature, when it granted the right to use water, it did 18 not include any provisions that said at some point in time we will take this back or take part of it back, and, in addition, 19 20 did not do as some states have done, which have said that the 21 highest use of water is for purposes of domestic use, drinking 22 use, which allows in California, for example, the governor of 23 that state in a year like this one to say I'm going to curtail 24 use of water rights for other purposes as necessary to meet --25 THE COURT: There are higher beneficial uses

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 27 of 88

1	under their legislation.
2	MR. DePAOLI: Higher beneficial uses, yes.
3	THE COURT: But not in ours.
4	MR. DePAOLI: Not in ours.
5	THE COURT: Okay. As you can see, I've been
6	talking to myself a little bit, but these are concerns that
7	are in my head swimming around, but you've helped me.
8	Let me let you now complete whatever argument you
9	want to make on the motion.
10	MR. DePAOLI: Your Honor, I was going to and
11	I'm not sure exactly where we are on the priority water right.
12	THE COURT: Before I interrupted you, you were
13	talking about the three areas that the Nevada Supreme Court
14	needed to tell us about.
15	MR. DePAOLI: Yes, your Honor.
16	The second area is the issue of whether or not a
17	single county like Mineral has the authority to raise or bring
18	a public trust public trust claim.
19	And on that one, Mineral County
20	THE COURT: Why not?
21	MR. DePAOLI: Well, here's why. First of all,
22	Mineral County
23	THE COURT: Aren't they just like any other
24	third party that would be recognized for standing purposes?
25	MR. DePAOLI: I would say no. They're not a

#### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 28 of 88

1 member of the public, they are a political subdivision of the 2 state with authority provided by statute and limited by 3 statute, and the --

THE COURT: So we have *parens patriae* rights over their citizens' rights and whether they can be defeased or not, just like the government has some definite *parens patriae* rights over the tribal rights.

8 Doesn't the county -- the county has the right to 9 enforce childcare laws. It has the right to terminate 10 parental rights because of abuse of children. Doesn't it have 11 the right to protect the rights of its citizens of the 12 subdivision for their recreational uses on Walker Lake?

MR. DePAOLI: I think not, your Honor, for the reason that, one, there's no express statutory authority that says they have that right.

16 Two, the public trust is not for any particular 17 political subdivision. If it exists, it exists for the 18 benefit of the state and for the entire state, citizenry of 19 the state.

And I think the Walker River Basin is a good example of the issues you run into in suggesting that a single county has the right to bring a claim to protect some part of a public trust resource that's within its boundaries.

Here we've got in Nevada three counties throughwhich this resource flows, each of which has similar benefits

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 29 of 88

1	to recreation economics as Mineral County is claiming in its
2	assertion of the public trust.
3	THE COURT: I'm taking your thought one step
4	further which the state needs to answer, or Mineral County
5	needs to answer for us.
6	How in the world, then, can they assert public trust
7	on behalf of California citizens, or how can they ask this
8	Court to impair California public trust obligations? How can
9	they ask me to impair the rights that are granted on the other
10	side of the border?
11	MR. DePAOLI: Or in contrast to that, how can
12	Mineral County ask the Court to impair the water right for the
13	Walker River Indian Reservation which is within Mineral County
14	and which has located on it citizens of Mineral County.
15	THE COURT: Okay.
16	MR. DePAOLI: The third question, your Honor,
17	and this one relates to the exhaustion of administrative
18	remedies, and I agree with Mineral County that if there is
19	going to be any modification to water rights in this decree
20	based on public trust doctrine under Nevada law, that it's
21	going to have to be this Court that makes those modifications.
22	However, there are water rights in the decree that
23	were granted by the Nevada State Engineer over which this
24	Court has said in its decree the state engineer had the
25	ability to take final action.

#### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 30 of 88

1	So in the broader scope of things under Nevada law,
2	and if Nevada is going to embrace the public trust doctrine
3	for purposes of defeasing some part of a water right, that
4	Court may well determine that when a water right was initiated
5	before the state engineer, the first step in that process
6	needs to be with the state engineer, and so that is the third
7	issue that I think a Nevada court ought to address.
8	THE COURT: Very good. Anything else?
9	MR. DePAOLI: Nothing more on that, your Honor.
10	I was going to talk about the Court's the
11	jurisdiction to what is meant by the jurisdiction to modify
12	the decree, but if your Honor doesn't we can that's
13	going to be an issue that also comes up in the B case so we
14	can argue it all then or
15	THE COURT: Okay. I'll leave it to you.
16	MR. DePAOLI: Thank you.
17	THE COURT: Thank you.
18	All right. Mineral County.
19	MR. HERSKOVITS: Good morning, your Honor.
20	THE COURT: Good morning.
21	MR. HERSKOVITS: I don't want to waste the
22	Court's time by repeating arguments that we've already set
23	forward in our brief in opposition to the motion to dismiss.
24	I do want to perhaps just underscore
25	THE COURT: Please, don't be reluctant to

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 31 of 88

1	reiterate an argument that answers some of the questions you
2	can see that the Court has.
3	MR. HERSKOVITS: Yes. Thank you, your Honor.
4	Well, first and foremost, I guess I should address
5	that it is our position that the Court did retain jurisdiction
6	in the decree to consider new water rights as well as
7	modifications and corrections to the decree.
8	And, in fact, our argument is, in fact, that
9	implicit in modifying and correcting the decree has to be the
10	Court's ability to consider whether there are water rights
11	that ought to have been addressed or recognized
12	THE COURT: But the decree recognizes that water
13	rights exist under Nevada law, right?
14	MR. HERSKOVITS: It does. It recognizes that
15	water rights are
16	THE COURT: So while the decree asserts a
17	continuing jurisdiction over modifications, in the same breath
18	it also recognizes that new water rights are subject to Nevada
19	law, correct?
20	MR. HERSKOVITS: It does, your Honor, but it
21	also purports to exert
22	THE COURT: Are you arguing that I willy-nilly
23	am the new legislature and authority over water rights? If
24	you want a new water right, you just come to me, you don't
25	have to go to the state engineer. Are you saying that the

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 32 of 88

1 decree says that?

2	MR. HERSKOVITS: No, no, your Honor. But it's
3	been a reading of the decree that it asserts control over the
4	surface waters of the Walker River system as a whole. So
5	within that confined geographic or hydrologic scope
6	THE COURT: So Judge Jones now is God over
7	Walker River, not the state engineer, I'm the one who approves
8	new water rights, who approves any request to change, who
9	approves diversion points or new uses; it's Judge Jones.
10	MR. HERSKOVITS: Well, your Honor, the way the
11	decree is set up or structured, ultimately the decree court
12	does have final authority on all change applications
13	THE COURT: Certainly.
14	MR. HERSKOVITS: on all those applications.
15	They do, however
1.0	
16	THE COURT: That's certainly true. That's why
16 17	THE COURT: That's certainly true. That's why I'm a forum at a minimum for appeals from the state engineer.
17	I'm a forum at a minimum for appeals from the state engineer.
17 18	I'm a forum at a minimum for appeals from the state engineer. But you're saying I have original jurisdiction to
17 18 19	I'm a forum at a minimum for appeals from the state engineer. But you're saying I have original jurisdiction to entertain new water rights, change priority rights. If I want
17 18 19 20	I'm a forum at a minimum for appeals from the state engineer. But you're saying I have original jurisdiction to entertain new water rights, change priority rights. If I want to, I can add a beneficial use and make it higher than an
17 18 19 20 21	I'm a forum at a minimum for appeals from the state engineer. But you're saying I have original jurisdiction to entertain new water rights, change priority rights. 17 18 19 20 21 22	I'm a forum at a minimum for appeals from the state engineer. But you're saying I have original jurisdiction to entertain new water rights, change priority rights. If I want to, I can add a beneficial use and make it higher than an agricultural use like California has done. I have the right to do that under that language.

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 33 of 88

1	THE COURT: So how far would you go then?
2	MR. HERSKOVITS: Well, because we believe the
3	public trust doctrine actually was implicit at the creation
4	or inherent at the creation of the state, that there was
5	already a doctrine that controlled the ability of the state to
6	commit the water resources of the state in a way that would
7	be
8	THE COURT: So you agree that if what the Court
9	construes your request to be that is a new water right
10	MR. HERSKOVITS: No, no, your Honor.
11	THE COURT: No, no, I know you're not arguing
12	that, but if I should so construe it, you're conceding, you're
13	agreeing the Court doesn't retain jurisdiction to do that.
14	It's only if I should construe the public trust doctrine to be
15	a defeasance clause on the prior grants.
16	MR. HERSKOVITS: Well, that is our view of the
17	public trust doctrine, your Honor.
18	THE COURT: Sure.
19	MR. HERSKOVITS: But if the Court were or
20	despite the fact that it's in fact not what we are requesting,
21	or not the nature of our claim, if the Court were to construe
22	the public trust doctrine claim as a claim for a new water
23	right, it's our position that the Court would at least have
24	jurisdiction to rule on whether or not such water right was
25	appropriate or required under Nevada law

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 34 of 88

1	THE COURT: Well, let's get to it now, that
2	MR. HERSKOVITS: on the Walker River system.
3	THE COURT: core question. To be quite
4	explicit, you're asking me for 127,000 what, acre feet?
5	MR. HERSKOVITS: No, your Honor.
6	THE COURT: You're asking me for a minimum flow
7	of what?
8	MR. HERSKOVITS: We are asking for a minimum
9	flow to the lake that is somewhere in the range of 50 to
10	55,000 acre feet above the average annual flows into the lake
11	over the current and historic period which is the 127,000 acre
12	feet.
13	THE COURT: Right. So you want the Court to
14	declare a total of 127,000, quite explicit, you want me to
15	declare this flow must go into Walker Lake, right?
16	MR. HERSKOVITS: I think the number is more than
17	that.
18	THE COURT: Why isn't that a new it's more
19	than that.
20	MR. HERSKOVITS: Yeah.
21	THE COURT: What is it? And it's not nebulous,
22	there's a specific number to it, right?
23	MR. HERSKOVITS: There is, your Honor, but
24	THE COURT: It's not just whatever the jury or
25	the judge says, you're asking for specific relief. What is

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 35 of 88

1	the relief you're asking?
2	MR. HERSKOVITS: You mean numerically?
3	THE COURT: Yeah.
4	MR. HERSKOVITS: Well, I believe the estimate
5	currently is that and Mr. DePaoli may have to correct me on
6	this, is that, as things stand now, there's an average annual
7	inflow to the lake of is it 90 or a hundred thousand?
8	MR. DePAOLI: Somewhere in the 90 range.
9	MR. HERSKOVITS: Somewhere in the range of
10	90,000 acre feet per year flowing into the lake.
11	THE COURT: Right.
12	MR. HERSKOVITS: And our request would be for
13	what is approximately maybe 50 to 55,000 additional acre feet.
14	THE COURT: Right.
15	MR. HERSKOVITS: So in reality we're talking
16	about, let's say, a guarantee of an average flow, not every
17	year, but an average flow of a hundred and forty-five thousand
18	acre feet of water
19	THE COURT: Right.
20	MR. HERSKOVITS: to the lake.
21	The reason that's
22	THE COURT: Now, you're hitting on an area
23	and I'm sorry to keep using the word, but you know that with
24	respect to drought conditions I am not God, right? You know
25	that. You know I can't create more water. You know that,

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 36 of 88

don't you? 1 2 MR. HERSKOVITS: Of course, your Honor. 3 THE COURT: It's a rhetorical question. So aren't you really asking for a water right with 4 5 priority? 6 MR. HERSKOVITS: Oh, no. 7 THE COURT: You're asking for a specific amount. 8 You're asking for all of those who have prior rights, including the Tribe, and any additional rights which I declare 9 for them, you're asking that they give way to a specific 10 11 number of flow that has to pass into Walker Lake. Why isn't 12 that a water right? 13 MR. HERSKOVITS: Well, your Honor, it's not 14 really a water right at all, it's a constraint on the system, 15 a natural requirement of the system such as other natural 16 constraints or requirements in the system that our position is 17 the state --18 THE COURT: Can you understand --MR. HERSKOVITS: -- has a trust obligation --19 20 THE COURT: -- why my brow is furrowed? 21 I mean, it's a natural constraint on the system. 22 You understand that the system produces varying amounts over 23 different years. In fact, for the last ten years it's producing far 24 25 less. Everybody up and down the river is crying the blues.

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 37 of 88

1	Over in California, in the central valley, they have any ing and
1	Over in California, in the central valley, they're crying, and
2	the state can do nothing to help them.
3	I can't produce a maximum annual flow. I don't have
4	the power to do it.
5	So what you're asking for is not a natural
6	constraint of the system, because Humboldt Sink is a sink,
7	it's no longer a lake. Lahontan Lake no longer exists.
8	I'm not saying that it's foregone that Walker Lake
9	will disappear, I'm not saying that. Heaven forbid, it would
10	be contrary to my own self-interest.
11	But what you're asking for is a specific natural
12	restraint on the river which I have no ability to create.
13	If what you're really looking for is desalination,
14	better wildlife, then ask the Tribe to let all of that land go
15	back to wetlands. Produce a desalination plant that will take
16	out the solids out of the water. Create better or do a
17	system like they've done over in the Great Salt Lake or other
18	areas, they've put up a big berm and, using hydrology, they
19	created a system that segregates the high salt into certain
20	areas.
21	You can't ask me unless you're asking for a
22	priority new water right, you can't ask me to give you a
23	minimum flow into the lake. I have no power to do that.
24	So you can see why my brow is furrowed. I just
25	don't understand why you're saying this is some vague right or

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 38 of 88

1	a defeasible right that impairs the prior grants, and it's not
2	in fact, with a specific number attached, a new water right.
3	MR. HERSKOVITS: Well, your Honor, if my choice
4	of words has been confusing, we do not believe that it is a
5	water right that is at issue here.
6	We believe that it's an obligation that the state
7	had as a fiduciary to present and future generations of
8	Nevadans to maintain the integrity of the water resource in
9	question, the greater system and the lake, which is a key part
10	of it and undeniably a navigable water body of great value
11	recreationally, aesthetically, economically, to Mineral County
12	and to others in the state.
13	And so with that obligation in mind, what the
14	state's duty under the public trust doctrine is, and what we
15	are asking the Court to enforce is the water rights in the
16	basin that have been granted, and that have been ratified or
17	confirmed under the decree, be modified in such a way as to
18	adjust down the amount of appropriative rights in order to
19	allow
20	THE COURT: Well, you can tell I'm just not
21	buying it. I don't get it. I don't understand your argument.
22	I don't understand how I have the authority or power to do
23	that.
24	As far as I can tell, you're asking for just what
25	you said, a specific limitation on priority rights in favor of

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 39 of 88

1 the lake. I'd love to do that, but I don't think I have the 2 power to do that. I don't think naturally I have the power to 3 do that.

So I just -- I just -- I'm not understanding your argument that this is some kind of vague obligation and not a new water right. I just don't understand the argument.

Honestly, I'm speaking to you sincerely. I'm not making fun of your argument, I'm telling you truthfully and sincerely I don't get it.

MR. HERSKOVITS: Well, your Honor, if I may just try to address it a little further.

Our position is that the state did not have the authority to grant the amount of water rights that were granted in the Walker River system that amounted to an overappropriation from the perspective of maintaining some level of more adequate inflow to Walker Lake.

It's our position that it's clear from the history 17 18 and the factual information available to really everyone, but certainly also to the Court, that had the state considered its 19 20 public trust duties to this resource and to the future 21 generations of Nevadans who would value it or want to rely on 22 it and use it, that it should have restricted the amount of 23 water rights granted in the Walker River Basin and that then 24 the Court took up and confirmed through the decree. 25 I would also add that it's our position that the

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 40 of 88

1	public trust doctrine imposes on all appropriative water
2	rights in Nevada a contingent or defeasible condition, if you
3	will, as you've pointed out, or at least raised the
4	possibility of, namely that the ownership of water in Nevada
5	under the constitution and under Nevada statutory law is in
6	the public, and it's the government's, the state's duty to act
7	as a trustee and maintain over the longer term the broadest
8	and greatest public interest values of those resources.
9	As a result of that ownership
10	THE COURT: Now, to be sure in your argument
11	that this is a defeasible right, not a new right being granted
12	to Mineral County
13	MR. HERSKOVITS: No, your Honor.
14	THE COURT: you're arguing that this is a
15	defeasible prior grant. It's defeasible because it was in
16	violation of the public trust doctrine.
17	But you're saying that, in any event, when it was
18	granted, right in the title of the deed, if you will, is a
19	provision, implicit to be sure, that it's defeasible if you're
20	impairing Walker Lake.
21	You're making that same argument with respect
22	now, the federal government says on behalf of the Tribe,
23	previously when we set up the reservation and additionally
24	when we granted additional reservation lands, the title to the
25	water that they also implicitly conveyed, is similarly

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 41 of 88

1	defeasible by the public trust doctrine, right?
2	MR. HERSKOVITS: Well, we've been arguing that
3	under Nevada
4	THE COURT: Or are there just particular
5	priority users upstream that you want to hit?
6	MR. HERSKOVITS: Well, your Honor, what we've
7	argued is that as a matter of Nevada law, Nevada water rights
8	are subject Nevada state water rights, including the ones
9	recognized under the decree, are conditioned by or defeasible
10	under the public trust doctrine of Nevada law
11	THE COURT: So at least you're recognizing that
12	I have no authority to defease, if you will, or to limit the
13	water rights upstream of the border. In other words, I have
14	no right, no jurisdiction under Nevada public trust doctrine
15	to limit, take away, defease, any upstream user or beneficial
16	user or reservoir above the border.
17	MR. HERSKOVITS: Well, your Honor
18	THE COURT: Yes or no?
19	MR. HERSKOVITS: No, in that the California
20	courts have also recognized the public trust doctrine's
21	applicability, and we would maintain, and I believe have, that
22	the public trust doctrine applies
23	THE COURT: So the public trust obligation over
24	Walker Lake, which exists wholly in the state of Nevada, I
25	have the authority to limit California users and the

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 42 of 88

1	California state because of violation by the Nevada State
2	Engineer of the public trust over Walker Lake.
3	MR. HERSKOVITS: Well, your Honor, if I may,
4	under California law, the public trust doctrine requires that
5	the public trust, as it pertains to the Walker River system,
6	be protected, be recognized.
7	So in California, as in Nevada, the Court would have
8	authority to enforce the public trust obligations on prior
9	water rights of all sorts created since the creation of those
10	two states.
11	THE COURT: This is a pretty amazing argument,
12	sir.
13	Why does Mineral County have the right to stand here
14	and tell me the state of Nevada or California's water board
15	has violated the public trust of the users of Walker Lake in
16	Nevada?
17	MR. HERSKOVITS: Well, under both Nevada and
18	California law, the courts have broadly held that any person
19	or any third party
20	THE COURT: So why do you have any standing to
21	stand here and make that complaint on behalf of your citizens?
22	You don't represent the California users. You don't
23	represent those with public trust rights, beneficial rights,
24	like the citizens of California or Nevada in the other two
25	counties. Why should I recognize you?

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 43 of 88

1	MR. HERSKOVITS: Well, the county has the same
2	right as any third person would have, a private citizen
3	THE COURT: Why do you say that? You're not a
4	private person. You're not a person for Section 1983 person
5	definitions. Why do you say that? You're a defined-by-law
6	entity. You're a subdivision of the state of Nevada.
7	MR. HERSKOVITS: Well, your Honor
8	THE COURT: You're not the Department of
9	Wildlife for the state of Nevada. You're not the governor's
10	office. Who are you relative to the public trust doctrine on
11	behalf of all citizens of the state of Nevada, let alone
12	California?
13	MR. HERSKOVITS: The county does have parens
14	patriae responsibilities and duties to all of its residents
15	who are citizens of the state of Nevada. And it has also
16	THE COURT: Over their public trust rights,
17	public trust water rights?
18	MR. HERSKOVITS: Well, I think it does have
19	standing to represent or to argue and raise a claim on behalf
20	of
21	THE COURT: So if the state of Nevada were
22	violating the public trust doctrine in granting boating
23	licenses or fishing licenses, would Mineral County have
24	standing to complain and sue the state of Nevada, you're
25	granting fishing licenses in excess of what's good for the

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 44 of 88

public interest for the Walker Lake and the citizens of our
county? Do you have standing to bring such a suit?
MR. HERSKOVITS: Well, your Honor, I don't know
whether fishing licenses or boating licenses could be viewed
as impairing the public trust
THE COURT: Why not?
MR. HERSKOVITS: since those are uses that
are protected by the public trust.
THE COURT: Why not? One of the public trust
purposes that you've asserted for Walker Lake is the
recreational fishing rights, right?
Would you have the authority to sue the state of
Nevada? You're granting too many fishing licenses on Walker
Lake and you're thereby violating the public trust.
MR. HERSKOVITS: I think the county would have
the right to assert a claim on behalf of its residents and
arguably on the public at large since every member of the
public
THE COURT: Okay. Pretty bold argument.
MR. HERSKOVITS: has that right to raise a
claim in court for a violation of the public trust doctrine.
THE COURT: Okay. I think I've got that
position.
MR. HERSKOVITS: And I think that the statutory
authority, and even obligation, imposed on the duty to protect

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 45 of 88

1	and advance the general welfare or public welfare of county
2	citizens or residents in part supports the county's obligation
3	and standing to assert such a claim.
4	THE COURT: So what you're citing is the general
5	right under subdivision statutory creation to protect the
6	general welfare of your citizens, which is a pretty broad
7	right. So if it includes the right to assert their interest
8	in the level of the lake or its salinity levels, it certainly
9	includes the right to tell the state to grant or not grant
10	fishing licenses.
11	MR. HERSKOVITS: Well, I don't think that that
12	would be
13	THE COURT: Or the air that comes over the
14	border from California, including the fires.
15	MR. HERSKOVITS: I don't understand the last
16	point, your Honor.
17	THE COURT: Well, my last point is pretty
18	simple. You're asserting a very, very broad right.
19	You're saying under the general welfare
20	authorization of the state statute which authorizes the
21	subdivision, general welfare, it includes the right to stand
22	up and have standing in court on behalf of your citizens for
23	every violation of a right by the state or sister states.
24	MR. HERSKOVITS: I think there's also support
25	for this in the case law, your Honor. In California,

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 46 of 88

1	certainly, the Mono Lake case, the National Audubon case,
2	holds very, very broadly that any entity or person can assert
3	a public trust claim, and Nevada law also has
4	THE COURT: Yes, it does, any person.
5	MR. HERSKOVITS: I think it supports also
6	entities made up of multiple people asserting claims, and I
7	don't think there's anything in Nevada law at all that
8	constrains or contradicts a county's ability to do that in
9	fulfillment of its parens patriae responsibility to the
10	residents of the county.
11	THE COURT: Okay.
12	MR. HERSKOVITS: And I think there are, you
13	know, certainly Nevada cases to that effect, not specifically
14	on this point, but that generally hold broadly that counties
15	and other entities have authority to assert claims on behalf
16	of their residents.
17	THE COURT: Okay.
18	MR. HERSKOVITS: Well, we've gotten off the
19	subject of a water right versus a doctrine or policy that
20	requires modification of the decree.
21	And, your Honor, Mr. DePaoli is correct that our
22	claim is one that rests on the argument and, I think, the law
23	that exists that establishes the public trust doctrine as a
24	constraint on appropriative water rights that are granted by
25	the state of Nevada.

#### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 47 of 88

And so under that reading it certainly is not a 1 2 request for a new water right with a priority, it is a request 3 for an enforcement of the trust duty that this state has failed to fulfill to restrict or to draw back from the full 4 amount of rights appropriated or granted on the system in 5 order to fulfill the obligation to maintain some level of 6 7 reasonable inflow to Walker Lake for its health and its 8 utility.

9 So that is certainly the nature of our claim, and I 10 think that the Court has jurisdiction under the decree to 11 consider that sort of doctrine or element of Nevada law in 12 considering whether and how to modify or correct the decree 13 from its current terms.

Now, Mr. DePaoli and the Walker River Irrigation 14 15 District have argued in the alternative, and, in fact, really 16 put more emphasis on the notion that assuming the Court has 17 jurisdiction over that sort of a claim, or that the public 18 trust claim of Mineral County construe that way, that the 19 Court should abstain from exercising further jurisdiction or 20 should stay further proceedings on this claim and should 21 instead refer the question or have the question taken up by 22 the Nevada Supreme Court.

As the Court undoubtedly knows, and we mentioned in our brief, Mineral County, because this case seemed to be stalled in the late '90s, did attempt to go to the Nevada

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 48 of 88

1	Supreme Court for and filed a petition for writ of mandamus
2	seeking relief from the state supreme court and asking the
3	supreme court of Nevada to address the meaning and nature of
4	the public trust doctrine in Nevada law.
5	THE COURT: I'm aware of this issue and the
6	argument.
7	MR. HERSKOVITS: Right.
8	It's our position that at that time there was no
9	controlling law establishing and clearly stating that the
10	public trust doctrine existed or had been adopted in Nevada
11	and was applicable to water and certain trust lands as well.
12	Lawrence the Lawrence decision, in our opinion,
13	clearly changes the state of law in Nevada. And the fact that
14	the Lawrence opinion approvingly cited and referenced and, in
15	a number of instances, in effect relied on Justice Rose's
16	concurrence in the Mineral County versus Nevada case, in the
17	current situation we would hold, and I have argued to the
18	Court, that there really now is a clear body of law, limited,
19	but it's clear enough that the public trust doctrine does
20	apply in Nevada.
21	And enough has been stated about its origins and the
22	way in which it should be used and applied and, in a given
23	instance, a resource and a legislative action that is alleged
24	to have committed the resource, are to be analyzed by a court
25	in determining whether or not that violates the public trust

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 49 of 88

1	and needs to be revisited or corrected in some manner.
2	So we don't actually believe this case is one in
3	which the Court has to certify the question to the Nevada
4	Supreme Court for an answer because we believe that the Nevada
5	Supreme Court and the court's sister jurisdictions have
6	established enough concerning the nature of the public trust
7	doctrine, how it's applied, what sort of analysis a court
8	would use in taking legislative action or the existence of
9	water rights or other private rights created under state
10	legislation and analyzing whether they need to be either
11	THE COURT: I get that. So both courts have
12	given me enough so that I can read the tea leaves.
13	MR. HERSKOVITS: Yes, that's our position.
14	And with regard to the standing of the county, I
15	think we've already addressed that, but I think there is
16	enough in the law of Nevada and California and some other
17	states to support the county's standing or authority or
18	ability to assert a claim under the public trust doctrine for
19	the benefit of its residents, and we would argue that the case
20	law actually says it can be done for the benefit of the public
21	at large by anyone or I guess I would say any corporate or
22	political entity would be possible.
23	Now, I think that the district in its reply brief
24	points to an instance of a state agency arrogating to itself
25	away from the state government without any authorization sole

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 50 of 88

authority or sole power to sort of usurp public trust 1 2 determinations or decisions that have to be made. 3 That's not at all the situation where a county raises a claim that does not sit as the adjudicator or the 4 decider of whether or not that claim has merit, how it should 5 6 be applied. 7 For Mineral County to assert a claim under the 8 public trust doctrine, and for other counties such as the ones 9 that Mr. DePaoli has mentioned, and private individuals to 10 then receive notice and be able to participate in that 11 litigation just as they would any other, doesn't somehow 12 represent an inappropriate usurpation by Mineral County of the power to enforce or determine the public trust doctrine. It's 13 14 a power or authority to raise a claim and seek relief from the 15 Court, in this instance, or, in other situations, the courts 16 of the state. 17 So our position is that the county has the authority 18 or authorization to raise this claim whether in state court or federal court, and I don't think that's an issue that is 19 20 really so ambiguous or unsettled that the Court needs to seek 21 guidance from the supreme court of Nevada on that point 22 either.

And, finally, with regard to exhaustion, in a number of cases in Nevada and also in sister jurisdictions, the challenge -- the challenge has been raised that rights granted

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 51 of 88

or procedures under the state water law prevent resort to the courts for something like a public trust claim or another claim to defend the interests of the state and its ownership in water even after appropriative rights have been granted.

5 And it seems to me that the case law clearly 6 establishes that exhaustion of administrative remedies is not 7 necessarily required for a public trust claim.

And particularly in Nevada I would point out that there is no procedure, there is no mechanism that recognizes the public trust as a claim that can be raised with the state engineer. There's no procedure that naturally allows this claim to be raised by Mineral County before the state engineer with regard to the entire basin.

And, indeed, you have to recall as well, your Honor, 14 15 that the claim is premised on and, in fact, is the result of a long, long history of both failure to recognize and enforce 16 17 the public trust by the state, including the state engineer. 18 And once the claim was raised or issues were raised about 19 Walker Lake which then led to the filing of this lawsuit, the 20 state refused to recognize and accept that there was a public 21 trust obligation to do anything at all with regard to the 22 Walker River system and Walker Lake.

23 So I don't think the argument that somehow there's 24 an imaginary administrative remedy that should be exhausted --25 THE COURT: And do you have anything to say

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 52 of 88

1 about the takings issue?

2	I mean, how do I explain to an upstream agricultural
3	user who now will only be allowed to take half of what they
4	could take before, or an urban water system like Yerington,
5	you now only can take half so that we can deliver what's
6	required under the public trust doctrine to Walker Lake? How
7	do I explain to them in layman's terms there's no takings
8	here.
9	MR. HERSKOVITS: Well, your Honor, may I say
10	that I think there are actually two ways of looking at that
11	question. There are probably many ways, but there are two
12	that have validity.
13	One is to say that it was clear from the outset that
14	ownership of the water was always held and to be held
15	ultimately, in an ultimate sense, by the state of Nevada for
16	the benefit of Nevadans, future as well as present, and for
17	purposes that the state may deem required its use, and
18	therefore
19	THE COURT: You're not arguing the right
20	MR. HERSKOVITS: the right that was granted
21	was contingent
22	THE COURT: to use is not a property right,
23	are you?
24	MR. HERSKOVITS: No, your Honor, and I will get
25	to what I think is an important well, the nature of the

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 53 of 88

1	property right may be that it is of less value because it is
2	defeasible or contingent and that that was clear
3	THE COURT: Sure. Any property right
4	MR. HERSKOVITS: when it was granted
5	THE COURT: can be defeasible. That was
6	clear when it was granted
7	MR. HERSKOVITS: Yes.
8	THE COURT: that it was defeasible if the
9	state engineer made a mistake.
10	MR. HERSKOVITS: Yes, or even before the state
11	engineer, if it had been permitted or if it had been allowed
12	to become
13	THE COURT: So if the federal government made a
14	mistake in designating 160 was it 160- or 140-acre maximum
15	allotments, they really should have been 500 acres in order to
16	make it farming feasible, or it should have been half that in
17	order to allow more comers, that the title that they got
18	really was defeasible, there's no taking.
19	MR. HERSKOVITS: Well, your Honor, we're not
20	making an assertion about other types of title or land
21	THE COURT: I know, you're just talking about
22	water right.
23	MR. HERSKOVITS: And not a water right but
24	the trust or fiduciary duty that the state had.
25	THE COURT: I think I've got it all, sir.

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 54 of 88

1 MR. HERSKOVITS: Can I say one more thing, your 2 Honor? 3 THE COURT: One more thing, please. MR. HERSKOVITS: Yes. It would not necessarily 4 be our position that if, as a result of a public trust 5 violation and a need to correct the violation or remedy it, 6 7 any property right, including a water right, however limited 8 or contingent or defeasible it may be, if that is being removed from a private property right owner by the state, by 9 any sovereign, then it should be subject to the takings clause 10 11 or to compensation. So --12 THE COURT: But not if Mineral County does it. 13 MR. HERSKOVITS: Your Honor, our position would 14 be that it may be that the public trust --15 THE COURT: I mean, the Wilderness Society has 16 taken the position that, by gum, we've waited long enough, 17 this river is suffering damage, we're going to raise money and 18 spend it and buy the water rights and just do what we should have done from the outset. But not so Mineral County. 19 20 MR. HERSKOVITS: Well, your Honor, our 21 position --22 THE COURT: There's no taking because it's 23 Mineral County. 24 MR. HERSKOVITS: No, your Honor. Our position 25 would be that if there's a taking, then the state, which is

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 55 of 88

1	the sovereign government that failed to fulfill
2	THE COURT: Has to pay.
3	MR. HERSKOVITS: or meet its public trust
4	obligation, would have the obligation to obtain the funding,
5	raise the funds necessary to correct that problem.
6	THE COURT: That's fair enough. Nevada will pay
7	the bill.
8	Okay. Let me hear from the federal government. Did
9	you want to add anything on the jurisdiction issue?
10	And, more importantly to the point, my question is
11	are you by failure to respond, are you conceding that
12	Mineral County has the right to defease, to the extent
13	necessary, whatever rights previously declared under the
14	decree or whatever new rights you may obtain by declaration
15	from this Court in the future?
16	MR. GUARINO: Your Honor, I don't with
17	respect to the motion that was filed by Mineral County,
18	Mineral County raised the issue concerning a motion to dismiss
19	in an alternative argument to the extent and raised it in
20	the nature of, to the extent that Mineral County is asserting
21	a water right, that water right, that claim should be
22	dismissed because this Court shouldn't have jurisdiction.
23	THE COURT: Right.
24	MR. GUARINO: I think what we've heard very
25	clearly from Mr. Herskovits and Mineral County today is that

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 56 of 88

1	under their complaint and why they're in Court today is not to
2	assert, and they are not asserting
3	THE COURT: A water right.
4	MR. GUARINO: a water right.
5	THE COURT: Yeah, they're very clear
6	MR. GUARINO: Very clear.
7	THE COURT: What they're saying is that the
8	previous rights granted are defeasible by a provision right in
9	the title, even if it's implicit in the grant of the water
10	right, and that's the public trust doctrine.
11	So are you conceding that point?
12	In other words, if the Court so construes it, all
13	water rights up and down this river previously declared or
14	sought to be declared in the modification now filed by any
15	party, that they're defeasible, are you conceding the point
16	that your rights, the Tribe's rights are also therefore, of
17	course, defeasible?
18	MR. GUARINO: I would raise the point, your
19	Honor, that Mineral County has made very clear under Nevada
20	law the public trust doctrine applies.
21	The rights associated with the claims asserted by
22	the United States on behalf of the Walker River Tribe arise
23	under federal law. Nobody has briefed or addressed the extent
24	to which a state law doctrine might impede or impair of affect
25	a federal law not federal law, but a federal right as

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 57 of 88

1	raised.
2	Now, certainly
3	THE COURT: Okay. I'm going to take that as a
4	concession, and I figure I'm licensed to use it in any written
5	decisions, that to the extent that they obtained this right
6	under state law, not a right, a defeasibility declaration on
7	the prior grants, that to the extent your grant, the grant of
8	water rights either to the federal government anew or to the
9	Tribe, federal government on behalf of the Tribe, to the
10	extent those rights are ruled or dictated by state law, not
11	federal law, that that's a concession on your part that it is
12	therefore defeasible.
13	MR. GUARINO: To the extent state law affects
14	state law rights, the United States stands as a state as
15	essentially, with some exception as to forfeiture and
16	abandonment as for all government property, but with the
17	extent to how state law affects a water right, we've taken no
18	position and advance no position in our briefing in addition
19	to anything else that has been presented to the Court.
20	But, really, your Honor, I think the point here is
21	that these matters, that matter that the Court is talking
22	about really hasn't been presented to the Court because the
23	motion that has been raised was a motion to dismiss in the
24	alternative.
25	It has been clear from the briefing from Mineral

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 58 of 88

County that such issue that would support the alternative of 1 2 WRID does not exist here because they're not asserting a water 3 right. THE COURT: That's fine that you say the issue 4 hasn't been presented, but, in my mind, it has. Because if 5 your right, newly declared, is a state right, property right, 6 7 then I take your position, your lack of a response, as a 8 concession that the defeasibility sought by Mineral County is 9 correct. 10 MR. GUARINO: The -- as I understand --11 THE COURT: Applies to your right as well. 12 MR. GUARINO: As I understand, to the extent 13 that the public trust doctrine applies to state law, 14 state-based water rights, it applies to all state-based water rights whenever created, whether it was pre -- post or 15 16 subsequent to 1905 when the legislature in Nevada has passed a 17 more -- a revised or updated version of the water code, and 18 then it applies to all water rights established under state 19 law. 20 THE COURT: Okay. Now, I have to ask the 21 question then. I understand -- you don't have to answer it 22 finally, and you can brief it further if you feel the need to, 23 perforatory to our further argument, but how does the Tribe's 24 right to water arise at all? 25 Let's say in the initial treaty. The initial treaty

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 59 of 88

1	was 1857?
2	MR. GUARINO: 1859, I believe.
3	THE COURT: 1859.
4	MR. GUARINO: Original reservation under
5	executive order as recognized by
6	THE COURT: And the state of Nevada was not
7	created until 1864, so in the original treaty first let's
8	do it in twofold fashion. In the original treaty first, what
9	water right implicitly under what law does the water right
10	arise, implicitly to be sure, in the original reservation
11	treaty?
12	MR. GUARINO: Yes, your Honor. And as the
13	Court's aware, the reservation for the we're talking about
14	just the Walker River Tribe. Of course, there were other
15	Indian groups and allotments and colonies in the basin itself.
16	But for the Walker River Tribe, the water right
17	associated with and asserted for the Walker River Tribe is one
18	under the federal reserved water rights doctrine as first
19	established by the Winters case and carried through in federal
20	common law moving forward.
21	It is one of the few areas
22	THE COURT: So it's a federal right
23	MR. GUARINO: It is, yes.
24	THE COURT: granted by virtue of the
25	ownership of the land by the federal government.

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 60 of 88

1	In other words, prior to the creation of the state,
2	certainly prior to the creation of the territory, the federal
3	government had all rights. They had the right to the oil, had
4	the right to the sagebrush, had the right to the grazing
5	rights, had the right to license or not license the taking of
6	deer, and it certainly had the water rights and the land
7	title.
8	MR. GUARINO: To be more precise on this issue,
9	your Honor, the federal government has the inherent power to
10	make such a reservation implicitly. It did so in this case in
11	1859
12	THE COURT: Right.
13	MR. GUARINO: when it took the act to reserve
14	the land.
15	THE COURT: Okay. Let's ask the second question
16	then.
17	Now, the new grant to the Tribe was when, 1930
18	MR. GUARINO: Six.
19	THE COURT: 1936. This is a new grant.
20	MR. GUARINO: Yes.
21	THE COURT: This is after all of the land you
22	still had title to that land, of course.
23	MR. GUARINO: We did.
24	THE COURT: But in the Newlands legislation, and
25	
	in other legislation, the federal government, in fact,

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 61 of 88

1	encouraged the states to set up water right systems, statutory
2	systems and, in most cases, administrate them so that we don't
3	have to have a court decree in every case, subject to court
4	review, of course, but it's an administrative office, state
5	engineer, and the federal government encouraged it.
6	And some of the states like Nevada very early on
7	said, okay, we'll set up a water right grant source, and it's
8	through an administrative agency, and we have to take into
9	account the public interest. We can't overappropriate, of
10	course, but we have the right to say stop, hold everything, no
11	more rights because the water is gone.
12	So, in other words, the federal government
13	encouraged it, and the state of Nevada took the invitation and
14	set up the system.
15	So what right, water right, under what authority is
16	given in the grant of lands, federal lands to be sure, in
17	1936?
18	MR. GUARINO: Your Honor, with regards to what
19	the Court has just described what the Court has just
20	described as federal government encouragement on the states, I
21	am simply unfamiliar with that, and that's well beyond the
22	briefing that's occurred before the Court.
23	THE COURT: You're familiar with the Newlands
24	legislation, aren't you?
25	MR. GUARINO: But yes, your Honor. If the

## Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 62 of 88

1	Court is referring to the Newlands legislation as associated
2	with the act of Congress to
3	THE COURT: And it gave benefits to all states
4	who would set up water right boards or tribunals.
5	MR. GUARINO: No I'm sorry, then I'm
6	unfamiliar with the Newlands legislation that the Court is
7	raising at this point.
8	THE COURT: Okay.
9	MR. GUARINO: So what I
10	THE COURT: What water right under what
11	authority is granted in 1936?
12	What you're saying, what I can discern you're saying
13	is, that along with keeping the title to 87 percent of the
14	lands from the state of Nevada
15	MR. GUARINO: Okay.
16	THE COURT: we also kept all rights that
17	pertain to that title including the right to grant water use.
18	So even though the water originates in the state of
19	California, by virtue of us keeping title to the land that we
20	later granted to the Tribe, we kept not only the oil rights
21	underneath, the gold rights underneath, we kept the water, the
22	right to use of the water, remember, a usufructuary right, not
23	an ownership right, a usufructuary right, we kept that right
24	to the lands we kept even if it's use of water that originates
25	in California. That's what your position is.

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 63 of 88

1	MR. GUARINO: Your Honor, with respect to the
2	lands added in 1936, the act of Congress to reserve the lands
3	on behalf of the Walker River Tribe impliedly also reserved
4	the water necessary for the Walker River Tribe to
5	THE COURT: Reserved what water?
6	MR. GUARINO: Whatever water was
7	unappropriated
8	THE COURT: The rainfall?
9	MR. GUARINO: Whatever water was unappropriated
10	at the time to ensure that the reserved land was a permanent
11	home for the Walker River Tribe, whatever that amount of water
12	need be.
13	The United States at the time reserved
14	unappropriated waters. That's what the United States reserved
15	at the time through its act of creating an extension on to the
16	reservation that served for that land.
17	THE COURT: And where there is a state system to
18	grant water rights, can you reserve water in derogation of the
19	public trust doctrine and obligations of the state of Nevada?
20	MR. GUARINO: The federal the federal
21	reserved water right that is reserved from the unappropriated
22	waters might be subject this is unbriefed, your Honor, and
23	the parameters to which I'm frankly I do not
24	THE COURT: That's why Mr. DePaoli is saying we
25	need the Nevada Supreme Court to tell us.

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 64 of 88

1	MR. GUARINO: With respect to how it might
2	how it might or might not affect a right reserved under
3	federal law, either in 1936 or beforehand, is unclear
4	depending upon the circumstances under which that
5	specific reservation might have been made.
6	THE COURT: Again, I don't understand your
7	argument because I don't understand how you can retain you,
8	the federal government, can retain a usufructuary right where
9	the federal government has acknowledged and encouraged, and
10	the state, in fact, has adopted a water right grant and
11	recognition system. I don't understand how you can do that.
12	MR. GUARINO: If I might just address that just
13	briefly, your Honor, it is based upon the federal implied
14	reserved water right doctrine that the federal government has
15	the inherent authority, inherent ability to reserve
16	unappropriated waters.
17	If the waters have already been appropriated
18	THE COURT: Okay. I got that. It doesn't make
19	sense to me, but that's fine. Let's go on to the issues that
20	you want respond to.
21	MR. GUARINO: With respect to the motion that's
22	before the Court, your Honor, as I've said, the matter that
23	the United States briefed in its brief in 128 associated with
24	the Mineral County claim was based upon the premise as
25	presented by WRID which was that a water right was being

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 65 of 88

1	claimed by Mineral County. That has not very clearly that
2	is not the position of Mineral County.
3	Of course, under 125-B, the Walker River Irrigation
4	District was asserting that the United States didn't have
5	the claim by the United States for a state-law-based water
6	right should be dismissed because such could not be considered
7	under the decree. That's not what's before the Court in the
8	125-C position.
9	And with respect to whether or not this Court should
10	stay or not stay the consideration of the public trust
11	doctrine, its scope, its applicability, the United States made
12	no representations to the Court and took no position. But
13	only to the extent that Walker River Irrigation District was
14	raising a challenge to a potential water right, the United
15	States took a position.
16	But given the position of the parties right now, I
17	think it's very clear that the United States the United
18	States the briefing that the United States presented to the
19	Court associated with the Mineral County claim does not apply
20	to the Mineral County claim because it's not what Mineral
21	County is claiming. They're claiming something very different
22	from what the United States claims, whether it's under federal
23	law or state law, for a water right. That's not what Mineral
24	County is claiming.
25	They're claiming a state-law-based water right a

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 66 of 88

state-law-based doctrine that could impact and arguably, from their point of view, as I understand their argument, does impact water rights as decreed by this Court and recognized under state law.

THE COURT: Okay. Very good. Thank you.

5

I think I've got it. I think I understand -- you 6 7 folks can see where my questions and where my doubts are. I 8 think I've clearly broadcast that. I hope it wasn't in a sarcastic fashion. It's just my manner of speaking when I 9 10 have questions. They were all very sincere questions, and you 11 can see -- they were not intended to be autocratic or 12 belittling, they honestly weren't. You can see where I have 13 doubts about your arguments.

And I'm not inviting further briefs, but if you feel the need to provide more support to answer my questions, you might do good to get a transcript and to further provide answers.

I'm not asking for extensive briefs at all, please. If you feel the need at all to answer my question with authority only, not so much argument, you may do so by making a request as normal under the rules, here's additional authority that we want to provide for the Court's consideration.

24This matter specifically is not under submission25until the date of the oral argument on the 125-B motion at

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 67 of 88

which time I'll take this under submission as well the 125-B 1 2 motion. 3 What date would you like to set for that? MR. GUARINO: Your Honor, if we --4 5 THE COURT: Because we have to do notice and 6 we've got to do briefing. 7 MR. GUARINO: And also, your Honor, under the 8 Court's most recent orders associated the superseding order, the United States is going to be sending out the Court's 9 superseding order to those that we -- those who have been made 10 11 parties to this case throughout the basin as the Court has ordered. 12 13 The United States is working on that right now and 14 has 30 days to complete that task. We'll complete that task 15 within 30 days. 16 THE COURT: Okay. 17 MR. GUARINO: Subsequent to that 30 days, the 18 folks who receive that notice have 60 days to respond to that 19 notice. 20 THE COURT: Okay. 21 MR. GUARINO: So that's 90 days out. And from that point, I believe -- the Court's instructions --22 23 THE COURT: They have to refile. 24 MR. GUARINO: They have to refile. 25 THE COURT: So at least a 60-day period in the

### Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 68 of 88

1	briefing. So we're talking at least six months.
2	I think we ought to go ahead and set the date, to be
3	honest with you, on your motion, anticipated motion, unless
4	you're telling me you're not going to file it.
5	We should give you a tentative date. It's not in
6	black ink on my calendar, but it's a tentative date for
7	argument on your motions to dismiss, newly filed as required
8	by the new order, and it will give you a date to work towards
9	in your noticing and in preparation of your motions, and it
10	ought to be at least six months out if not a little longer.
11	You tell me.
12	MR. DePAOLI: Your Honor, in terms of a hearing,
13	six months out?
14	THE COURT: Right. It will give you a date to
15	work towards, the noticing, the objection time and then
16	finally your briefing time when that starts.
17	MR. GUARINO: Brief, response, reply.
18	MR. DePAOLI: That would be fine.
19	THE COURT: And write it in in just pencil,
20	Madam Clerk.
21	MR. DePAOLI: When we refile, are we going to
22	refile and have a whole new briefing schedule, your Honor, or
23	would we just are you looking for to us refile
24	THE COURT: You have to my understanding of
25	the order Judge Cobb proposed and I adopted was that you are

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 69 of 88

1	required to refile your motion so that all properly-noticed
2	parties get notice of it with respect to dismissal on the
3	125-В.
4	MR. DePAOLI: Your Honor, that's we
5	although we didn't have the superseding order at the time, we
6	did give notice, all of us gave notice of everything we filed
7	in the B case as if
8	THE COURT: So you believe even under the
9	superseding order it's already been properly briefed.
10	MR. DePAOLI: I believe so, your Honor.
11	THE COURT: The government is nodding no, unless
12	they want to say, in spite of the stay, we feel like we've
13	said it all in our briefs. You've just got to send them out
14	to everybody so that everybody has a chance to object.
15	MR. GUARINO: Your Honor, with respect to the
16	superseding order, when the Court issued the order just
17	recently I wasn't expecting the Court to dismiss I'll be
18	quite honest, I wasn't expecting the Court to dismiss the
19	Walker River Irrigation District's motion without prejudice
20	and ask us to proceed again.
21	THE COURT: But I did that.
22	MR. GUARINO: I thought you did that.
23	THE COURT: Right.
24	MR. GUARINO: We were proceeding, I believe,
25	over the last year

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 70 of 88				
1	THE COURT: I think technically you should			
2	refile it, sir.			
3	MR. GUARINO: Okay.			
4	THE COURT: Since the order as it stands says			
5	it's denied without prejudice to a full and complete noticing			
6	of the list.			
7	So refile it, please, and tell us, this is the new			
8	filing, and everybody has properly served notice of it so they			
9	have a chance to object and the time is running.			
10	And give us a date, Madam Clerk, in about six			
11	months. It's a tentative date in pencil. If you want to move			
12	it up, feel like you can move it up, please do so. If not,			
13	then, of course, I'll set it back.			
14	What date?			
15	THE CLERK: Your Honor, Monday, May 4th, 2015,			
16	at 10:00 a.m.			
17	THE COURT: Okay. First part of May. And, of			
18	course, you can move it up if you feel you want to get it on			
19	calendar earlier than that.			
20	This matter is not under submission until that date			
21	or such earlier date as we set oral argument in 125-B.			
22	Thank you. The arguments have been very helpful.			
23	I'm sorry, Mr. Springmeyer, I didn't call upon you.			
24	Did you want to add to our fun fair here?			
25	MR. SPRINGMEYER: I did not want to add to this,			

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 71 of 88

your Honor, but rather to bring something on the Court's radar 1 2 screen. 3 THE COURT: Please. MR. SPRINGMEYER: Which was that I filed on 4 behalf of NFWF about eight months ago a request for the Court 5 to review and confirm the state engineer ruling on our first 6 7 transfer. 8 THE COURT: That's right. 9 MR. SPRINGMEYER: And I'm hoping --10 THE COURT: And that was again for an in-stream 11 use, change of use. 12 MR. SPRINGMEYER: Correct, your Honor. 13 THE COURT: So change of diversion point -- it's 14 really change of use. 15 MR. SPRINGMEYER: Yes. 16 THE COURT: Okay. 17 MR. SPRINGMEYER: It's not diverting it at the 18 same place where it was being diverted. THE COURT: Right, it's to leave it in the 19 20 stream. 21 MR. SPRINGMEYER: Correct, your Honor. 22 THE COURT: And the state engineer has approved 23 that --24 MR. SPRINGMEYER: Correct, your Honor. 25 THE COURT: -- consistent with current Nevada

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 72 of 88

1	law. And you filed a motion, and did you get any objections?
2	MR. SPRINGMEYER: We have parties who filed to
3	appear supporting and several who filed objecting.
4	THE COURT: Okay. So let's set an oral argument
5	date, and let's hear the objections, and I can even give you
6	an oral ruling to be followed by a written ruling right then
7	and there.
8	MR. SPRINGMEYER: I think all the parties would
9	probably appreciate at least the filing of simultaneous briefs
10	in advance of the hearing.
11	THE COURT: Do you need briefs or you feel
12	like you need briefs.
13	MR. SPRINGMEYER: Well, yes, your Honor, I think
14	that would be
15	THE COURT: Let's do it. How far down can we do
16	the argument, 30 days, 60 days?
17	MR. SPRINGMEYER: How about if we had
18	simultaneous briefs 30 days, argument 60 days.
19	THE COURT: Let's do that. Give us a date for
20	the simultaneous briefs, Madam Clerk. That doesn't require an
21	argument or a calendar. And then 60 days for the argument.
22	Do you want right for replies? Maybe you should.
23	Simultaneous briefs in 30 days. If you really feel
24	the need for a reply, don't just burden the Court because I've
25	got lots of reading time, but let's say let's say within

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 73 of 88

seven days, seven days for a reply if you feel the need. 1 2 MR. SPRINGMEYER: Very good. Thank you, your 3 Honor. THE COURT: And a 60-day date, please. 4 THE CLERK: Your Honor, 60 days puts us into the 5 6 beginning of January. 7 THE COURT: Okay. 8 THE CLERK: January 5th, 2015, at 10:00 a.m. THE COURT: January 5th. Is that okay? 9 10 MR. SPRINGMEYER: Thank you, your Honor. 11 THE COURT: And so 30 days hence, today is the 12 27th, so November -- so the 27th, Thanksgiving? November 28th we do have a delightful holiday, don't we, on the 28th, so you 13 14 can't file anything, but you can do it electronically. 15 MR. SPRINGMEYER: Technically we could e-file 16 it, your Honor. 17 THE COURT: And seven days later deadline for 18 any replies. 19 MR. SPRINGMEYER: Thank you, your Honor. 20 THE COURT: Thank you, sir. 21 MR. DePAOLI: Your Honor, may I raise one more 22 matter of similar nature? 23 THE COURT: Sure. 24 MR. DePAOLI: The California State Water 25 Resources Control Board approved some temporary changes to

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 74 of 88

stored water rights for a leasing program potentially for the 1 2 benefit of Walker Lake. 3 THE COURT: And you objected. MR. DePAOLI: No, we did not, they were our 4 5 temporary changes, your Honor. THE COURT: Oh, okay. 6 7 MR. DePAOLI: And we have on file with the Court 8 in the main action also the state board's report to the Court as special master in the district's petition for a temporary 9 10 modification of the decree --11 THE COURT: Did anybody object? MR. DePAOLI: The only objection thus far has 12 13 been from the Tribe and the United States, your Honor, and it may be that that can be worked out with a conversation. 14 15 THE COURT: Okay. And does the Tribe and the 16 United States want an oral argument or a briefing opportunity, 17 or am I to just simply rule on the basis of their application? 18 MR. GUARINO: Your Honor, I am sorry, I was 19 having -- concerning the matter that the Court just --20 THE COURT: What are we talking about? We're 21 talking about the California board's approval of change in the 22 reservoir, the storage rights, temporary, and Mr. DePaoli had 23 understood that the government may or may not have objection 24 to that. 25 Do you want an opportunity to respond with an

# Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 75 of 88

1	objection and an oral argument to follow, or are you satisfied
2	with just the application from the California board and can I
3	rule on that?
4	Did you want an opportunity to object or are you
5	satisfied with their application?
6	MR. WILLIAMS: Your Honor, Wes Williams, Jr., on
7	behalf of the Tribe.
8	I believe I'm trying to recall, I haven't looked
9	at this in a while.
10	The Tribe's interest was that WRID's application and
11	California's order didn't say how water would affect the
12	reservation, and that's one issue I wanted to bring up before
13	the Court in that there needed to be some system set up to
14	deal with that issue.
15	THE COURT: Okay. Then my suggestion is that
16	within the next week you consult with the California board and
17	Mr. DePaoli, the water district, and you ask for appropriate
18	changes to their request or clarifications, and at the end of
19	a week, if you're not happy with what they presented, then
20	file an objection and Madam Clerk will set it for oral
21	argument.
22	And the normal briefing rules apply. You'll file an
23	objection which will invoke the oral argument date and they'll
24	have, under our local rules, appropriate response time and you
25	can reply.

Case 3:73-cv-00128-MMD-CSD Document 781 Filed 11/07/2014 Page 76 of 88 1 MR. WILLIAMS: Thank you. 2 THE COURT: So that's how to get it on calendar, 3 Mr. DePaoli. Judge Jones, I'm Therese Ure, and I 4 MS. URE: just wanted to make sure that in the case that Mr. Springmeyer 5 was discussing that there will be an order that comes out 6 7 because I know that not all of the parties in that case are 8 the same parties that are here in court today. So I just 9 wanted to --10 THE COURT: We do need a resulting order, and I 11 think that's what he's asking for. 12 MS. URE: Right. 13 MR. SPRINGMEYER: And I was intending to do a --14 file a notice that recites those things as well. 15 THE COURT: Terrific. 16 MS. URE: Thank you. 17 THE COURT: Thank you very much for your help 18 today. I appreciate it. That will conclude the hearing. 19 -000-20 21 I certify that the foregoing is a correct transcript from the record of proceedings 22 in the above-entitled matter. 23 /s/Margaret E.
